The "Student month" organized by ICSI Mysuru Chapter in the month of July 2020 was very creative and unique. It helped me a lot mentally during the quarantine. It gave me an opportunity to learn about how the audit plays a vital role in context of armed forces. The online session done on "Life skills" lightened me with the ways to live a good and happy life.

Online program which was organized for students on 27 July, 2020 with the subject which everyone thinks while appearing for interview i.e. on "How to appear for interview" was full of important contents and highlighted all the different aspects which is very useful.

I thank ICSI Mysuru Chapter for organizing a creative "Student month" by which the entire month of July 2020 for me went on very creatively by being engaged in varieties of activities.

Firstly, I thank ICSI for organizing these kinds of events even during these pandemic situations. The competitions and seminars organized were really useful and informative.

I participated only in three or four events which was very much useful and informative. I really feel bad for not participating in all the sessions conducted by ICSI MYSORE.

Competitions were conducted in a very well-organized manner like Intimating all information before 5 or 10 minutes and encouraging students by giving E-certificates etc.,

One more request sir/madam., please do organize a session based on how to prepare Resume by CS Madhwesh K, which will be very much useful for everyone for preparing resume for interviews.

Once again, I thank ICSI Mysore for organizing such an informative event....

The activities and competitions helped us to explore our abilities and learn to strengthen our skills. The challenging questions in the Company Law Quiz were very interesting. The sudden twist of including a stress interview in the PPT competition revealed our spontaneity to ourselves. The webinars by experts on Life Skills; on How to Attend an Interview; and on Direct Tax - Assessment, Appeals and Revision were very valuable to us, it made us want to learn more and browse more into the subject. All the webinars and competitions had an exciting mix of fun and learning. Sincere thanks to the organizers. We wish to take part in more such events.
