#### 1. Introduction

The Company Secretaries Act, 1980 (the Act) was enacted to make provision for the regulation and development of the profession of Company Secretaries, the Institute of Company Secretaries of India set up under the said Act has been conducting examinations and prescribing standards for adherence by its members. The concept of whole-time practice, which gained its initial recognition in 1988, has gained momentum after the enactment of the Companies (Amendment) Act, 2000 which required Compliance Certificate to be issued by Practising Company Secretary for certain size of companies. Secretaries to periodically review the PCS firms and evaluate the quality, sufficiency of systems, procedures and practices, so that excellence in their performance is maintained.

The Council of the Institute has been constituted under the Company Secretaries Act, 1980 for discharging the functions assigned to the Institute under the Act. Section 15 of the Act provides that "the duties of carrying out the provisions of this Act shall be vested in the Council" and enumerates various duties of the Council. With a view to regulate the profession of Company Secretaries and in terms of the powers vested, the Council is thus authorised to issue these guidelines for Peer Review. These guidelines serve as a mechanism intended to further enhance the quality of professional work of Practising Company Secretaries over a period of time, thereby ensuring that the profession of Company Secretaries continues to serve the society in the manner envisaged.

## 2. Objectives

2.1 The main objective of Peer Review is to ensure that in carrying out their attestation services and professional assignments, the PCS (a) comply with the Technical Standards laid down by the Institute and (b) have in place proper systems (including documentation systems) for maintaining the quality of the attestation services work they perform. The Council has specified in these guidelines for Peer Review, the Technical Standards in relation to which peer review is to be carried out. Peer review does not seek to redefine the scope and authority of the Technical Standards specified by the Council but seeks to enforce them within the parameters prescribed by the Technical Standards.

2.2 Peer Review is directed towards maintenance as well as enhancement of quality of attestation services and to provide guidance to members to improve their performance and adhere to various statutory and other regulatory requirements. Essentially, through a review of attestation services engagement records, peer review identifies the areas where a practising member may require guidance in improving the quality of his performance and adherence to various requirements as per applicable technical Standards.

2.3 These guidelines provide a framework of the Peer Review process and the requirements of what is expected of a member during the conduct of a peer review.

12.2 For the purpose of this clause a person means a Partner/ Sole Proprietor of the practice unit to which the particular review relates or any person employed by or whose services are engaged by such unit.

### 13. Periodicity of Peer Review

13.1 The peer review of every practice unit should be mandatorily carried out at least once in a block of five years. However, if the Board so decides or otherwise at the request of the practice unit, the peer reviews for a practice unit can be conducted at shorter intervals.

### 14. Cost of Peer Review

14.1 The cost of Peer Review for reviewer and his qualified assistant(s) as may be decided by the Board from time to time, shall be borne by the Practice unit. In case reviewer has to conduct second review, the same rate would apply to the second review also. Each of the branch/ office under review would be considered separately.

15.1 To ensure that the objective of peer review is attained in letter and spirit, adequate training facilities shall be provided, from time to time, to the Reviewer(s) and other persons who assist the Board as and when and in the manner considered appropriate by the Board. ### 16. Review Framework

16.1 Essentially, a peer review entails a review of attestation engagement records and related financial/other statements to ascertain that the practice unit is adhering to Technical Standards. Where a practice unit is not following Technical Standards in certain situations, suggestions and recommendations for improvement may be made, and possibly followed by a further review, in keeping with the primary thrust of peer review.

16.2 The methodological approach involved in peer review can be defined in terms of three stages viz. planning, execution and reporting, which are summarized below;

#### (i) Planning

- **Intimation** - A practice unit will be intimated in writing about an impending peer review and will be sent a Questionnaire for completion together with a panel of three suggested names of reviewers. The practice unit will have to give its choice of reviewer within a period of 15 days from the day of receipt of the panel sent by the Board.
- **Return of completed Questionnaire** - The practice unit shall have to complete and return the Questionnaire to the reviewer within one month of receipt. The information will be used for the planning of the review. In addition, practice units will be required to enclose a

complete list of their attestation services clients, and to provide any other information the reviewer considers necessary to facilitate the selection of a sample of attestation services engagements, representative of the practice unit's client portfolio, for review.

## (ii) Sample of Attestation services Engagements

- (a) from the complete attestation services client list, an initial sample will be selected by the reviewer. Practice units will be intimated of the selection in writing about two weeks in advance, requesting the relevant records of the selected attestation services clients to be made available for review.
- (b) At the execution stage, the initial sample may be reduced to a smaller actual sample for review. However, if the reviewer considers that the actual sample does not cover a fair cross-section of the practice unit's attestation services engagements, he may make further selections.

## (iii) Confirmation of visit

In consultation with the practice unit date(s) will be set for the on-site review to be carried out. Flexibility will be permitted to ensure that members are not inconvenienced at especially busy periods. The on-site review date(s) will be arranged by mutual consent such that the review is concluded within sixty days of intimation.

- (i) Peer review visits will be conducted at the practice unit's head office or other officially noted/recorded place of office. The complete on-site review of a practice unit may take at least a full day depending upon the size of the practice unit. This is based on the assumption that the practice unit concerned has made all the necessary information and documentation available to the reviewer for his review. However, in any case this on-site review should not extend beyond three working days.

## (ii) Initial meeting

An initial meeting will be held between the reviewer and a partner/sole proprietor of the practice unit designated to deal with the review (designated partner). The primary purpose of this meeting is to confirm the accuracy of the responses given in the Questionnaire. The description of the system in the Questionnaire may not fully explain all the relevant procedures and policies adopted by the practice unit and this initial meeting can provide additional information. The reviewer should have a full understanding of the system and be able to form a preliminary evaluation of its adequacy at the conclusion of the meeting.

## (iii) Compliance Review-General Controls

- (a) The reviewer may carry out a compliance review of the General Controls and evaluate the degree of reliance to be placed upon them. The degree of reliance will, ultimately, affect the attestation services engagements to be reviewed. The following five key controls will be considered as General Controls:

- Independence
- Maintenance of Professional Skills and standards
- Outside Consultation
- Staff Supervision and Development
- Office Administration

Practice units are expected to address each of the five key control areas.

- (b) In each key control area there shall be supplementary questions and matters to consider. These are intended to ensure that the kind of controls that are expected to be maintained, are installed and operated within practice units.
- (c) All questions in the questionnaire may not necessarily be relevant to particular types of practice units because of the size and culture etc. However, practice units should still assess their internal control systems to ascertain whether they address the objectives under the five key control areas.

#### (iv) Selection of attestation services engagements to be reviewed

- (a) The number of attestation services engagements to be reviewed depends upon:
  - The number of practicing members involved in attestation services engagements in the practice unit;
  - The degree of reliance placed, if any, on general quality controls; and
  - The total number of attestation services engagements undertaken by the practice units for the period under review.
- (b) The engagements reviewed should be a balanced sample from a variety of different types of companies. Accordingly, if the reviewer considers that the actual sample is not representative of the practice unit's attestation services client portfolio, he may make further selections from the initial sample or from the complete attestation services client list.

#### (v) Review of records

The reviewer may adopt a compliance approach or substantive approach or a combination of both in the review of attestation services engagement records.

- (a) Compliance approach-Attestation services Engagements
  - The compliance approach is to assess whether proper control procedures have been established by the practice unit to ensure that attestation services are being performed in accordance with Technical Standards.
  - Practice units should have procedures and documentation sufficient to cover each of the key areas. Members in smaller practices may find some of the documentation too elaborate for most of their clients and so should tailor their attestation services documentation to suit their particular circumstances with justification for doing so provided to the reviewer.
- (b) Substantive approach-Attestation services Engagements

Put in your innovative idea to develop something useful out of the waste.

Stop the use of poly bags for any purpose

Let's Carpool!

Pledge to save fuel, save money, save energy

A substantive approach will be employed if the reviewer chooses not to place reliance on the practice unit's specific controls on attestation engagements or is of the opinion that the standard of compliance is not satisfactory. This approach requires a review of the attestation working papers in order, to establish whether the attestation work has been carried out as per norms of Technical Standards.

- At the end of an on-site review, the reviewer shall, before making his report to the Board, communicate a preliminary report to the practice unit. Based on the report of the reviewer, it appears that the practice unit has satisfied the major key control objectives but some weaknesses exist in others. The practice unit is expected to consider the recommendations for rectifying the weaknesses thus identified and informed by the Board and take all necessary actions to ensure that all key control areas are addressed.

(e) A follow up review will be required where the practice unit has not satisfied the Board that all the key control objectives have been maintained and where, in the view of the Board the deficiencies are likely to materially affect the overall quality of an attestation services engagement of the practice unit. In such cases the Board will also make recommendations, which it expects the practice unit to implement in order to ensure the maintenance of Technical Standards. The implementation of these recommendations will be examined during the follow up review.

(f) In case the reviewer is not satisfied even at the subsequent review, he shall submit his Report to the Board incorporating his reasons for dissatisfaction.

(iii) final Report of Reviewer

The model forms of such final Reports shall be communicated to the reviewer by the Board.

(b) The Board shall consider the reviewer's final report and the practice unit's submissions. Thereafter, the Board may issue recommendations, if considered appropriate, to the practice unit and/or instruct the Reviewer to perform any follow-up action. The Board may, if deemed fit, then issue Peer Review Certificate to the practice unit.

## CG & CSR : WATCH

This watch gives an update of the latest happenings in the area of Corporate Governance and Corporate Social Responsibility.

### NEW DEVELOPMENTS

#### 1. FRC announces changes to UK Corporate Governance Code --- 11 October 2011

On the basis of responses to the views sought by The Financial Reporting Council (FRC) on whether the UK Corporate Governance Code should be revised as recommended by Lord Davies of Abersoch in his review of the gender diversity of the boards of UK-listed companies published in February 2011, FRC has announced its decision to amend the UK Corporate Governance Code to strengthen the principle on boardroom diversity which was first introduced into the Code in June 2010.

These amendments will require listed companies to report annually on their boardroom diversity policy, including gender, and on any measurable objectives that the board has set for implementing the policy and the progress it had made in achieving the objectives. The FRC will also update the Code to include the diversity of the board, including gender, as one of the factors to be considered when evaluating its effectiveness.

The current revised Code, which came into effect in June 2010, included for the first time a principle recognising the value of diversity in the boardroom, which states that, "The search for board candidates should be conducted, and appointments made, on merit, against objective criteria and will due regard for the benefits of diversity on the board, including gender".

The new provisions on diversity will apply to financial years beginning on or after 1 October 2012. However, the FRC strongly encourages all companies voluntarily to apply and report on the diversity additions to the code with immediate effect.

Detailed code can be accessed at:

#### 2. Global Reporting Initiative (GRI) – G4 Guidelines

The Global Reporting Initiative (GRI) drives sustainability reporting by all organizations. GRI produces a comprehensive Sustainability Reporting Framework that is widely used around the world to enable greater organizational transparency. The Framework, including the Reporting Guidelines, sets out the Principles and Indicators that organizations can use to measure and report their economic, environmental, and social performance. GRI is committed to continuously improving and increasing the use of the Guidelines, which are freely available to the public.

The launch of the fourth generation of GRI's Guidelines – G4 – is planned for 2013. The G4 Guidelines will be developed using the international multi-stakeholder consultation.

These guidelines are expected to address requirements for sustainability data, and enable reporters to provide relevant information to various stakeholder groups. It is also expected to improve on content in the current Guidelines – G3 and G3.1 – with strengthened technical definitions and improved clarity, helping reporters, information users and assurance providers.

Earlier this year, GRI invited the public to submit suggestions to a 'Call for sustainability reporting topics.' GRI had gone through these perspectives and designed a new online survey for broader public consultation.

The first Public Comment Period for G4 Survey is now open.

Public comment helps ensure that GRI's Guidelines are consensus-based and reflect the broadest possible stakeholder input. The first G4 Public Comment Period is an online survey. It runs for 90 days and closes on 24 November 2011.

The survey seeks crucial feedback on issues like:

- the principal reasons for sustainability reporting
- report formats
- the minimum content of a GRI sustainability report
- report topics – including views on the proposals from the public 'Call for sustainability reporting topics' in May
- general experiences with sustainability reporting

Open Public Comment Periods, diverse expert Working Groups and GRI's approval procedures will ensure that G4's guidance is consensus-based and reflects the broadest possible stakeholder input.

Madam/ Sir,

### Overseas forex trading through electronic / internet trading portals

Attention of the Authorised Dealer Category - I (AD Category - I) banks is invited to [A.P. \(DIR Series\) Circular No. 53 dated April 07, 2011](#) wherein AD Category I banks were advised to exercise due caution and be extra vigilant in respect of the margin payments being made by the public for online forex trading transactions through credit cards / deposits in various accounts maintained with banks in India. Further, AD Category-I banks were also advised to exercise due caution in respect of the accounts being opened in the name of individuals or proprietary concerns at different bank branches for collecting the margin money, investment money, etc. in connection with such transactions.

2. It has been observed that overseas foreign exchange trading has been introduced on a number of internet /electronic trading portals luring the residents with offers of guaranteed high returns based on such forex trading. The advertisements by these internet / online portals exhort people to trade in forex by way of paying the initial investment amount in Indian Rupees. Some companies have reportedly engaged agents who personally contact people to undertake forex trading/ investment schemes and entice them with promises of disproportionate / exorbitant returns. Most of the forex trading through these portals are done on a margining basis with huge leverage or on an investment basis, where the returns are based on forex trading. The public is being asked to make the margin payments for such online forex trading transactions through credit cards / deposits in various accounts maintained with banks in India. It is also observed that accounts are being opened in the name of individuals or proprietary concerns at different bank branches for collecting the margin money, investment money, etc. It is again reiterated that AD Category - I banks should exercise due caution and be extra vigilant in respect of the transactions that require residents to make margin payments for online forex trading transactions through credit cards / deposits in various accounts maintained with banks in India. It is clarified that any person resident in India collecting and effecting / remitting such payments directly /indirectly outside India would make himself/ herself liable to be proceeded against with for contravention of the Foreign Exchange Management Act (FEMA), 1999 besides being liable for violation of regulations relating to Know Your Customer (KYC) norms / Anti Money Laundering (AML) standards.
