## CG & CSR : WATCH

This watch gives an update of the latest happenings in the area of Corporate Governance and Corporate Social Responsibility.

### NEW DEVELOPMENTS

#### 1. Towards Integrated Reporting Communicating Value in The 21st Century-- IIRC

The Discussion Paper - "Towards Integrated Reporting – Communicating Value in the 21st Century" was launched Monday 12th September 2011 by international Integrated Reporting Committee. The rationale behind this is to develop an International Integrated Reporting Framework that will facilitate the development of reporting over the coming decades. The core objective of the Framework is to guide organizations on communicating the broad set of information needed by investors and other stakeholders to assess the organization's long-term prospects in a clear, concise, connected and comparable format. This will enable those organizations, their investors and others to make better short and long-term decisions.

Integrated Reporting brings together material information about an organization's strategy, governance, performance and prospects in a way that reflects the commercial, social and environmental context within which it operates. It provides a clear and concise representation of how an organization demonstrates stewardship and how it creates and sustains value. An Integrated Report should be an organization's primary reporting vehicle.

Answers to the Consultation Questions in this Discussion Paper, and any other comments are invited to be submitted by Wednesday 14th December 2011. All comments received will be considered a matter of public record and will be posted on [www.theiirc.org](http://www.theiirc.org).

"Social business brings a new dimension to the business world, and a new feeling of social awareness among the business community. I am not opposed to making profit. Even social businesses are allowed to make profit with the condition that the profit stays with the company; the owners will not take profit beyond the amount equivalent to investment."
