## **Tally Bags Deal to Train 2, 50,000 FKCCI Members on GST**

BENGALURU: Recently, Indian software product company Tally Solutions has signed a MoU with The Federation of Karnataka Chambers of Commerce & Industry (FKCCI). The partnership involves training of about 2, 50, 000 direct and indirect members of FKCCI by Tally Solutions. Tally will train the participants on GST preparation and transition as part of this collaboration. The MoU was announced at an event held at Le Meridian, Bengaluru. Tally will hold GST awareness sessions in every district of Karnataka for FKCCI members, an official said.

Speaking about the MoU, Tejas Goenka, Executive Director – Tally Solutions said, “We are delighted to have collaborated with the FKCCI for GST awareness for their members. FKCCI is the single largest commerce and industry body in the state of Karnataka and this tie-up will allow us to reach out to all their member businesses and prepare them for GST transition. The recently announced budget has paved the way for GST with the finance minister talking about the government’s reach out starting 1st April for industry readiness. As a company, which has been the technology partner for SMEs, we are proactively reaching out to businesses across industries for the same and consider it our responsibility to educate and help them to successfully comply with GST. This association is another step in that direction.”
