

GSTPOINT

ICSI Initiative ensuring effective implementation of GST

Dear Professional Colleagues,

ICSI as its capacity building initiative to spread awareness among the public at large about the diverse facts and facets of Goods and Services Tax and with a view to assist the Government in effective implementation of GST commenced GST POINT. ICSI is delighted to receive a commendable response from all the spheres.

GST POINT is a single point platform to reply to the queries, difficulties and challenges faced by consumers, manufacturers, traders, MSMEs, public at large, professionals, etc. in implementation of Goods and Services Tax Laws.

The queries are received and replied over the phone on the issues and challenges faced under GST by stakeholders in day to day working. The help line is open for two hours, twice a week and the queries are addressed by subject experts.

The forthcoming 'GST POINT' call-in session is scheduled as under:

Day and Date: Friday, February 9, 2018

Time: 3PM to 5PM

For this session, the queries may be raised related to basic understanding of the GST law at 011-45341095. I invite all the stakeholders-consumers, manufacturers, traders, MSMEs, public at large, professionals etc. to avail this unique opportunity.

ICSI has also set up Physical GST POINT Counters for solving queries of the stakeholders at many of its Regional and Chapter offices across the country on every Wednesday and Friday at the same time when the call-in session is held at Head Office. I request all of you to avail this opportunity and also share this information with public at large.

Regards,
CS Makarand Lele
President, ICSI
