Lesson 17
Background, Administration and Procedural Aspects of Service Tax

LEARNING OBJECTIVES

The Service tax was introduced on the recommendation of Dr. Raja Chelliah Committee on tax reforms. Initially it was imposed at a uniform rate of 5% in the Union Budget for 1994-95 on 3 services. In a journey of about 19 years, it has seen various changes. Finance Act, 2012 has made remarkable changes in service tax legislation whereby the concept of Positive list of Taxable services has been replaced with a negative list. There is paradigm shift in the way services are taxed. Now all services except as notified in Negative list or exemption list are subject to applicability of service tax.

At the end of this lesson, you will learn

- The principles underlying the introduction of service tax
- Constitutional background of service tax
- Administrative machinery of service tax
- Components which provides for governance of service tax law
- Place of Provision of Services Rules
- Applicable rate of service tax.

Service tax is administered by the Central Board of Excise and Customs (CBEC) which is under the control of the Department of Revenue, Ministry of Finance. CBEC administers the service tax through the Central Excise Department. A separate cell called the service tax cell, under each Commissionrates of central excise has been created for the purpose. Considering large number of assessees, CBEC has also established Service Tax Commissionrates in some cities.
BACKGROUND

As the economy grows and develops, the contribution of the services sector becomes more substantial. Hence, tax on services becomes substantial revenue for the Government. Although Service tax is a concept of the modern era where developed economies as well as developing economies find over 70% of their gross economic output coming from the service sector. Service tax was in vogue even in the Mauryan period in India. Ms. Romila Thapar in her “Asoka and the Decline of the Mauryas”, at page 72 (London 196, paperback edition, 1997, by Oxford) points out that services of weapon and implement makers were required to be provided to the state for a certain number of days in a year. This was a form of service tax in that period. But in the modern context, because of the increasing contribution of the service sector to the GDP of an economy, the importance of service tax is growing. As under the WTO agreements governments are required to reduce customs tariffs, governments are considering increase in service taxes revenues as a compensatory revenue generation mechanism. In terms of economics, tax on services is an indirect tax. This is because the burden of service tax can be passed on to the customer i.e., the recipient of the service. The service provider may also bear the burden of the tax by not passing or charging the same to a customer.

Example: How the burden of service tax shifted on the consumer?

Mr. Mohit is practicing Company Secretary, he represent before the Tax Authorities on behalf of Mr. Neeraj and raise a invoice of ₹1,00,000 plus service tax @12.36%.

Here, Mr. Neeraj is the client and he is required to pay the service tax of ₹12,360 in addition to the value of services. Subsequently Mr. Mohit deposit the sum to treasury of Central Government.

The ultimate outcome of this is that the burden of service tax is on the consumer.

The Tax Reforms Committee headed by Dr. Raja J Chelliah recognized the revenue potential of the service sector and recommended imposition of service tax on selected services (selective approach or positive list approach). Consequently the service tax was imposed at a uniform rate of 5% in the Union Budget for 1994-95 on 3 services.

Finance Act, 2012 has made remarkable changes in service tax legislation whereby the concept of Positive list of Taxable services has been replaced with a negative list. A negative list of services implies that there is, a list of services which are not be subject to service tax. Service tax will not be chargeable on the services mentioned in the negative list and which are exempted by issue of notification. This is in contrast to the earlier method of taxation of services where the law had provided definition for each taxable service and all other undefined services were outside the preview of Service Tax.

Reason for Imposition of Service Tax:

In ALL INDIA FEDN. OF TAX PRACTITIONERS v. UNION OF INDIA 2007 (7) S.T.R. 625 (S.C.) the Hon’ble Supreme Court of India has mentioned the following reasons for the imposition of service tax.

Service tax is an indirect tax levied on certain services provided by certain categories of persons including companies, association, firms, body of individuals etc. Service sector contributes about 64% to the GDP. Services” constitute heterogeneous spectrum of economic activities. Today services cover wide range of activities such as management, banking, insurance, hospitality, consultancy, communication, administration, entertainment, research and development activities forming part of retailing sector. Service sector is today occupying the centre stage of the Indian economy. It has become an Industry by itself. In the contemporary
world, development of service sector has become synonymous with the advancement of the economy. Economics hold the view that there is no distinction between the consumption of goods and consumption of services as both satisfy the human needs.

In late seventies, Government of India initiated an exercise to explore alternative revenue sources due to resource constraints. The primary sources of revenue are direct and indirect taxes. Central excise duty is a tax on the goods produced in India whereas customs duty is the tax on imports. The word “goods” has to be understood in contradistinction to the word “services”. Customs and excise duty constitute two major sources of indirect taxes in India. Both are consumption specific in the sense that they do not constitute a charge on the business but on the client. However, by 1994, Government of India found revenue receipts from customs and excise on the decline due to W.T.O. commitments and due to rationalization of duties on commodities. Therefore, in the year 1994-95, the then Union Finance Minister introduced the new concept of “service tax” by imposing tax on services of telephones, non-life insurance and stock-brokers. That list has increased since then. Knowledge economy has made “services” an important revenue-earner.

At this stage, we may refer to the concept of “Value Added Tax” (VAT), which is a general tax that applies, in principle, to all commercial activities involving production of goods and provision of services. VAT is a consumption tax as it is borne by the consumer.

In the light of what is stated above, it is clear that Service Tax is a VAT which in turn is destination based consumption tax in the sense that it is on commercial activities and is not a charge on the business but on the consumer and it would, logically, be leviable only on services provided within the country. Service tax is a value added tax.

As stated above, service tax is VAT. Just as excise duty is a tax on value addition on goods, service tax is on value addition by rendition of services. Therefore, for our understanding, broadly “services” fall into two categories, namely, property based services and performance based services. Property based services cover service providers such as architects, interior designers, real estate agents, construction services, mandap Keepar etc.. Performance based services are services provided by service providers like stock-brokers, practicing company secretaries, practising chartered accountants, practising cost accountants, secucvrity agencies, tour operators, event managers, travel agents etc..

Government of India in order to tap new areas of taxation and to identify the hidden one appointed Tax Reforms Committee under the Chairmanship of Dr.Raja J Chelliah in August, 1991. The recommendations made by the Committee were accepted and the Service Tax was introduced in the Budget for 1994-95 through the Finance Act, 1994. Under the said enactment, Service Tax is the tax on notified services provided or to be provided. After its introduction, the constitutional validity of the services taxed by the Central Government was challenged before the Constitution Bench of this Court which took the view that the Central Government derived its authority from Entry 97 of List I of the Seventh Schedule to the Constitution for levying tax on services provided.

**CONSTITUTIONAL VALIDITY**

As per Article 246 of the Constitution of India, law can be enacted by Parliament or the State legislature, if such power is given by the Constitution of India.

Article 265 of the Constitution lays down that no tax shall be levied or collected except by the authority of law.
Schedule VII divides this subject into three categories –

(a) Union list (only Central Government has power of legislation)
(b) State list (only State Government has power of legislation)
(c) Concurrent list (both Central and State Government can pass legislation).

Entry 97 of the Union list is the residuary entry and empowers the Central Government to levy tax on any matter not enumerated in state list or the concurrent list.

In 1994, the service tax was levied by the central government under the power granted by the entry 97 of the union list.

Thereafter in 2003 the government has passed the constitution (88th Amendment Act, 2003) which provides for the levy of service tax by the centre through the insertion of article 268A to the constitution. In addition to article 268A, entry 92C has been inserted in the union list to make the enactment relating to service tax a subject matter of union list.

Students may note that entry No.92C has not yet been made effective by the parliament and service tax is still governed by the entry 97 of the union list.

ADMINISTRATIVE MECHANISM

Service tax is administered by the Central Board of Excise and Customs (CBEC) which is under the control of the Department of Revenue, Ministry of Finance. CBEC administers the service tax through the Central Excise Department. A Central Excise Commissionerate establishes a separate cell called the service tax cell for the purpose of administration of Service Tax within its jurisdiction. Considering large number of assessees, CBEC has also established Service Tax Commissionerates in some cities. There are six Commissionerates located at metropolitan cities of Delhi, Mumbai, Kolkata, Chennai, Ahmadabad and Bangalore which deal exclusively with work related to Service Tax. These Commissionerates are supervised by the jurisdictional Chief Commissionerate of Central Excise.

TAXABILITY OF SERVICES

Service Tax is levied vide Finance Act, 1994 (the Act). The Finance Act, 1994 applies all over India except the state of Jammu & Kashmir.

With effect from 1st July 2012, a new charging Section 66B has been inserted by the Finance Act 2012. Section 66B provides that there shall be levied a tax (hereinafter referred to as the service tax) at the rate of twelve per cent on the value of all services, other than those services specified in the negative list, provided or agreed to be provided in the taxable territory by one person to another and collected in such manner as may be prescribed.

The taxation of services is completely overhauled from positive approach or selective services to negative list approach. Now, no classification of services is required for the purpose of taxability. Moreover, only services rendered in taxable territory are taxable for which Place of Provision of Service Rules, 2012 (‘PPSR’) are prescribed and with this Import of Services and Export of Services Rules has been rescinded.

MEANING OF SERVICE

The Finance Act, 2012 has also defined a term “Service” for the first time. In other words, from June 1994 to June 2012, the Finance Act, 1994 was not containing a definition of the term Service.

Clause (44) of Section 65B of the Act has defined a term Service as under:

Where RWA is working as a pure agent of its members for sourcing of goods or services from a third person, amount collected by RWA from its members may be excluded from the value of taxable service in terms of Rule 5(2) of Service Tax (Determination of Value) Rules, 2006 subject to compliance with the specified conditions.

Accounting Codes for Services

Service Tax accounting codes must be mentioned in the Service Tax Payment Challan (GAR 7). In case of Multiple service Provider (a service provider rendering more than one taxable service), amount attributable to each such service along with the concerned accounting codes should be mentioned clearly in the column provided for this purpose in the GAR 7 Challan.

Accounting code for the purpose of payment of service tax under the Negative List approach [*All Taxable
Services” – 00441089] was prescribed vide Circular 161/12/2012 dated 6th July, 2012. However, for statistical analysis suggestions were received for restoration of old accounting codes and to provide list of description of services to the taxpayers for obtaining registration. After examining the suggestions old accounting code list has been restored and service specific accounting codes for the purpose of registration and payment of service tax is provided in annexure to the Circular No.165/16/2012 –ST.

**STEP 1: To determine whether service is being provided by you:**

<table>
<thead>
<tr>
<th>S.NO.</th>
<th>QUESTION</th>
<th>Provide Your Answer</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Am I doing an activity (including, but not limited to, an activity specified in section 65E of the Act) for another person*?</td>
<td>YES</td>
</tr>
<tr>
<td>2</td>
<td>Am I doing such activity for a consideration?</td>
<td>YES</td>
</tr>
<tr>
<td>3</td>
<td>Does this activity consist only of transfer of title in goods or immovable property by way of sale, gift or in any other manner?</td>
<td>NO</td>
</tr>
<tr>
<td>4</td>
<td>Does this activity constitute only a transfer, delivery or supply of goods which is deemed to be a sale of goods within the meaning of clause (29A) of article 366 of the Constitution?</td>
<td>NO</td>
</tr>
<tr>
<td>5</td>
<td>Does this activity consist only of a transaction in money or actionable claim?</td>
<td>NO</td>
</tr>
</tbody>
</table>
6 Is the consideration for the activity in the nature of court fees for a court or a tribunal? NO

7 Is such an activity in the nature of a service provided by an employee of such person in the course of employment? NO

8 Is the activity covered in any of the categories specified in Explanation 1 to clause (44) of section 65B of the Act NO

If the answer to the above questions is as per the above answers in column 3 of the table above THEN you are providing a service.

STEP 2: To determine whether service provided by you is taxable

If you are providing a ‘service’ (Step 1) and then pose the following Questions to yourself-

<table>
<thead>
<tr>
<th>S.NO.</th>
<th>QUESTION</th>
<th>ANSWER</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Have I provided or have I agreed to provide the service?</td>
<td>Yes</td>
</tr>
<tr>
<td></td>
<td>Have I provided or have I agreed to provide the service in the taxable territory?</td>
<td>Yes</td>
</tr>
<tr>
<td>2</td>
<td>Is this activity entirely covered in any of the services described in the negative list of services contained in section 66D of the Act?</td>

7.11.11 Whether the exemption provided in the mega-exemption to services by way of construction of roads, airports, railways, transport terminals, bridges, tunnels, dams etc., is also available to the sub-contractors who provide input service to these main contractors in relation to such construction?

As per clause (1) of section 66F reference to a service by nature or description in the Act will not include reference to a service used for providing such service. Therefore, if any person is providing services, in respect of projects involving construction of roads, airports, railways, transport terminals, bridges, tunnels, dams etc., such as architect service, consulting engineer service ., which are used by the contractor in relation to such construction, the benefit of the specified entries in the mega-exemption would not be available to such persons unless the activities carried out by the sub-contractor independently and by itself falls in the ambit of the exemption.

It has to be appreciated that the wordings used in the exemption are ‘services by way of construction of roads etc’ and not ‘services in relation to construction of roads etc’. It is thus apparent that just because the main contractor is providing the service by way of construction of roads, airports, railways, transport terminals, bridges, tunnels, dams etc., it would not automatically lead to the classification of services being provided by the sub-contractor to the contractor as an exempt service.
However, a sub-contractor providing services by way of works contract to the main contractor, providing exempt works contract services, has been exempted from service tax under the mega exemption if the main contractor is engaged in providing exempt services of works contracts. It may be noted that the exemption is available to sub-contractors engaged in works contracts and not to other outsourced services such as architect or consultants.

39. Services by a governmental authority by way of any activity in relation to any function entrusted to a municipality under article 243W of the Constitution.

(D) PLACE OF PROVISION OF SERVICES RULES

Service Tax Is Destination Consumption Based Tax

Service Tax is a Value Added Tax (VAT) and is destination based consumption tax in the sense that it is on commercial activities and is not a charge on the business but on the consumer and it would, logically, be leviable only on services provided within the country. This principle is more or less universally applied.

In terms of this principle, exports are not charged to tax, as the consumption is outside the taxable territory, and services are taxed on their importation into the taxable territory.
However, most of the services are intangible in nature; the determination of place of their consumption is not easy. Services could be provided by a person located at one location, actually performed at another while being delivered to a person located at a third location, and occasionally actually consumed at a third location or over a larger geographical territory, falling in more than one taxable jurisdiction. For example a person situated in Delhi may buy a ticket on line from a service provider located outside India, say Delta Airline, USA for a journey from Mumbai to New York, wherein part of the service will be provided on Indian land mass or in taxable territory (the territory of India including territorial waters of India extending up to 12 nautical miles (under International Sea Act). Hence services provided beyond the territorial waters of India are not liable to service tax as the provisions of the service tax have not been extended beyond India). On other occasions the exact location of service recipient itself may not be available e.g. services supplied electronically through internet such as software services, web based services, software maintenance services. As a result it is necessary to lay down rules determining the exact place of provision, while ensuring a certain level of harmonization with international practices in order to avoid both the double taxation as well as double non-taxation of services.

It is also a common practice to largely tax services provided by business to other business entities, based on the location of the customers and other services from business to consumers based on the location of the service provider. Since the determination in terms of above principle is not easy, or sometimes not practicable, nearest proxies are adopted to provide specificity in the interpretation as well as application of the law.

**Function of Place of Provision of Services Rules, 2012**

These rules are primarily meant for:

(a) The assessee who deal in cross-border services (from taxable territory to non taxable territory or from non taxable territory to taxable territory).

(b) Those assessee who have operations with suppliers or customers in the state of Jammu and Kashmir.

(c) Service providers operating within India (within the taxable territory) from multiple locations, without having centralized registration will find them useful in determining the precise taxable jurisdiction applicable to their operations.

(d) Determining services that are wholly consumed within a SEZ, to avail the outright exemption from service tax.

**Basic Framework**

Place of Provision of Services (POPS) Rules, 2012 are comprehensive set of rules which provides for whether a service has been provided in taxable territory or not. The concept of Export or Import service has been replaced with provision of service in taxable or non taxable territory and therefore no separate set of rules for Export and Import of services exists. The rules for determination of import of services has done away with and export of services are now determined with Rule 6A of Service Tax Rules, 1994.

**How the POPS Rules, 2012 shall apply**

*The answer to this question is provided in Para 5.2.1. of Taxation of Services – An Education Guide dated 20.06.2012 as follows:*

As stated earlier, in terms of section 66B, a service is taxable only when, inter alia, it is “provided (or agreed to be provided) in the taxable territory”. Thus, the taxability of a service will be determined based on the place of its provision. For determining the taxability of a service, therefore, one needs to ask the following
questions sequentially:-

1. Which rule applies to the service provided specifically? In case more than one rules apply equally, which of these come later in the order given in the rules?

2. What is the place of provision of the service in terms of the above rule?

3. Is the place of provision in taxable territory? If yes, tax will be payable. If not, tax will not be payable.

4. Is the provider ‘located’ in the taxable territory? If yes, he will pay the tax.

5. If not, is the service receiver located in taxable territory? If yes, he may be liable to pay tax on reverse charge basis.

6. Is the service receiver an individual or government receiving services for a non business purpose, or a charity receiving services for a charitable activity? If yes, the same is exempted. If not, he is liable to pay tax.

Before moving to the Rules for determining the Place of provision of Services Rules, the understanding of the following term is very important.

**Taxable territory** has been defined in sub-section 52 of section 65B. It means the territory to which the provisions of Chapter V of the Finance Act, 1994 apply i.e. whole of India excluding the state of Jammu and Kashmir.

“**Non-taxable territory**” is defined in sub-section 35 ibid accordingly as the territory other than the taxable territory.

“**India**” is defined in sub-section 27 of section 65 B, as follows:

“**India**” means—

(a) the territory of the Union of India as referred to in clauses (2) and (3) of article 1 of the Constitution;

(b) its territorial waters, continental shelf, exclusive economic zone or any other maritime zone as defined in the Territorial Waters, Continental Shelf, Exclusive Economic Zone and Other Maritime Zones Act, 1976;

(c) the sea-bed and the subsoil underlying the territorial waters;

(d) the air space above its territory and territorial waters; and

(e) the installations structures and vessels located in the continental shelf of India and the exclusive economic zone of India, for the purposes of prospecting or extraction or production of mineral oil and natural gas and supply thereof;

**Order of Application of POPS, Rules 2012**

Rule 14 of POPS rules, provides that rules should be interpreted in reverse order, means rules which comes last in order will be considered first and if that is not applicable then go to the second last and so on. These rules should be applied in the reverse order (from below to above) i.e. in case rule 8 is applicable no other rule prior to this rule shall be applicable.

An illustration is given in Para 5.14.1 of Taxation of Services – An Education Guide dated 20.06.2012 as follows:

**Illustration 1**

An architect based in Mumbai provides his service to an Indian Hotel Chain (which has business
establishment in New Delhi) for its newly acquired property in Dubai. If Rule 5 (Property rule) were to be applied, the place of provision would be the location of the property i.e. Dubai (outside the taxable territory). With this result, the service would not be taxable in India. Whereas, by application of Rule 8, since both the provider and the receiver are located in taxable territory, the place of provision would be the location of the service receiver i.e. New Delhi. Place of provision being in the taxable territory, the service would be taxable in India.

By application of Rule 14, the later of the Rules i.e. Rule 8 would be applied to determine the place of provision.

Illustration 2

For the Ms Universe Contest planned to be held in South Africa, the Indian pageant (say, located in Mumbai) avails the services of Indian beauticians, fashion designers, videographers, and photographers. The service providers travel as part of the Indian pageant’s entourage to South Africa. Some of these services are in the nature of personalized services, for which the place of provision would normally be the location where performed (Performance rule-Rule 4), while for others, under the main rule (Receiver location) the place of provision would be the location of receiver.

Whereas, by application of Rule 8, since both the provider and the receiver are located in taxable territory, the place of provision would be the location of the service receiver i.e. New Delhi. Place of provision being in the taxable territory, the service would be taxable in India.

By application of Rule 14, the later of the Rules i.e. Rule 8 would be applied to determine the place of provision.

Main Rule: Rule 3

Rule 3 of the POPS rules provide the basic rule (except provided otherwise in the POPS Rules). As per this rule, the place of provision of services shall be:

- the location of the recipient of service
- in case the location of the service receiver is not available in the ordinary course of business, the place of provision shall be the location of the provider of service.

The principal effect of this rule is that:-

A. Where the location of receiver of a service is in the taxable territory, such service will be deemed to be provided in the taxable territory and service tax will be payable.

B. However if the receiver is located outside the taxable territory, no service tax will be payable on the said service.

Rule 2 defines ‘location of service provider’ as follows:

(h) “location of the service provider” means-

(a) where the service provider has obtained a single registration, whether centralized or otherwise, the premises for which such registration has been obtained;

(b) where the service provider is not covered under sub-clause (a):

(i) the location of his business establishment; or

(ii) where the services are provided from a place other than the business establishment, that is to say, a fixed establishment elsewhere, the location of such establishment; or
(iii) where services are provided from more than one establishment, whether business or
(iv) fixed, the establishment most directly concerned with the provision of the service; and in the
absence of such places, the usual place of residence of the service provider.

Rule 2 defines ‘location of service receiver’ as follows

(i) “Location of the service receiver” means:-

(a) where the recipient of service has obtained a single registration, whether centralized or
otherwise, the premises for which such registration has been obtained;

(b) where the recipient of service is not covered under sub-clause (a):

(ii) the location of his business establishment; or

(iii) where services are used at a place other than the business establishment, that is to say, a
fixed establishment elsewhere, the location of such establishment; or

(iv) where services are used at more than one establishment, whether business or fixed, the
establishment most directly concerned with the use of the service; and

(iv) in the absence of such places, the usual place of residence of the recipient of service.

Explanation:- For the purposes of clauses (h) and (i), “usual place of residence” in case of a body
corporate means the place where it is incorporated or otherwise legally constituted.

Explanation 2:- For the purpose of clause (i), in the case of telecommunication service, the usual
place of residence shall be the billing address.

Who is a service receiver?

Para 5.3.3 of Taxation of Services – An Education Guide dated 20.06.2012 provides as follows:

Normally, the person who is legally entitled to receive a service and, therefore, obliged to make payment, is
the receiver of a service, whether or not he actually makes the payment or someone else makes the
payment on his behalf.

Service tax is normally required to be paid by the provider of a service, except where he is located outside
the taxable territory and the place of provision of service is in the taxable territory.

Where the provider of a service is located outside the taxable territory, the person liable to pay service tax is
the receiver of the service in the taxable territory, unless of course, the service is otherwise exempted.

Following illustration will make this clear:-
A company ABC provides a service to a receiver PQR, both located in the taxable territory. Since the location of the receiver is in the taxable territory, the service is taxable. Service tax liability will be discharged by ABC, being the service provider and being located in taxable territory.

However, if ABC were to supply the same service to a recipient DEF located in non-taxable territory, the provision of such service is not taxable, since the receiver is located outside the taxable territory.

If the same service were to be provided to PQR (located in taxable territory) by an overseas provider XYZ (located in non-taxable territory), the service would be taxable, since the recipient is located in the taxable territory. However, since the service provider is located in a non-taxable territory, the tax liability would be discharged by the receiver, under the reverse charge principle (also referred to as “tax shift”).

**RATE OF SERVICE TAX**

The rate of service tax is mentioned in the charging section. As per the new charging section 66B, as stated earlier, service tax is leviable @12% on the value of taxable services. Further, as per section 91 read with section 95 of the Finance (No. 2) Act, 2004 Section education cess is leviable @ 2% and as per section 136 read with section 140 of the Finance Act, 2007 secondary and higher education cess is leviable @ of on the amount of Service Tax levied. Education cess of 2% and secondary and higher education cess of 1% is in the nature of sur tax on service tax.

**Computation of Service Tax**

If a person renders a taxable service of the value of ₹ 500, the service tax @12% will be ₹ 60. The Education cess of 2% on ₹ 60 will be ₹ 1.20 and secondary and higher education cess of 1% will be ₹0.60. Thus, a total tax will be ₹ 61.80.

**ROUNDING OFF OF SERVICE TAX**

The provisions of Section 37D of the Central Excise Act, 1944 are applicable to Service Tax Law by virtue of Section 83 of Finance Act, 1994 (as amended), provide that the amount of service tax, interest, penalty, fine or any other sum payable and the amount of refund or any other sum due, under the provisions shall be rounded off to the nearest rupee and, for this purpose, where such amount contains a part of a rupee consisting of paisa then, if such part is fifty paisa or more, it shall be increased to one rupee and if such part is less than fifty paisa it shall be ignored.

**LESSON ROUND UP**

- The Tax Reform Committee headed by Dr. Raja C. Chelliah recognised the revenue potential of service sector and recommended imposition of service tax on some select services.
- Entry No. 92C has not yet been made effective by the parliament and service tax is still governed by the entry 97 of the union list.
- The Central Board of Excise and Customs has been entrusted with the task of administration of service tax.
- The taxation of services is completely overhauled from positive approach or selective services to negative list approach. Now, no classification of services is required for the purpose of taxability.
- With the introduction of Negative list approach the services which are out of the purview of negative list and mega exemption list are chargeable to service tax.
- Services rendered in taxable territory are taxable for which Place of Provision of Service Rules, 2012 (‘PPSR’) are prescribed and with this Import of services and export of services rules has been rescinded.
• Service tax is charged @12% plus Education cess @2% and SHEC @ 1%.
• Service tax, interest, fine, penalty or any other sum payable shall be rounded off to the nearest of rupee one.

**INCIDENCE TO PAY SERVICE TAX**

With effect from 1st July 2011, the liability to pay service tax was shifted from receipt basis to accrual basis with the introduction of Point of Taxation (POT) Rules, 2011. As per rule 3 of POT rules the liability to pay service tax shall arise upon issuance of invoice or receipt of payment whichever is earlier.

Proviso to Rule 6 of Service Tax Rules, 1994 has provided that in case of the individuals and partnership firms having an aggregate value of taxable services provided from one or more premises of ₹ 50 lakhs or less in the previous financial year, shall have the option to pay service tax upon receipt basis upto ₹ 50 lakhs in the current financial year.

The basic purpose for introduction of Point of Taxation Rules, 2011 is to bring clarity and certainty in matter of levy and collection of service tax in situations of:

- Change of rate of service tax
- Imposition of service tax on new services
- Continuous supply of services

Moreover, POT rules, 2011 have been introduced to bring synchronization between service tax and other taxes like Excise Duty and VAT which work on accrual basis and this is a step towards implementation of GST.

POT rules, 2011 were issued by the Central Government vide Notification No. 18/2011- ST dated 1st March, 2011 w.e.f. 1st April 2011. However, these rules were made effective w.e.f. 1st July 2011 vide Notification No.25/2011-ST dated 31st March 2011. Now, let us discuss the provisions of these rules:

Point of taxation means the point in time when a service shall be provided or deemed to have been provided. This Point of time will determine rate of service tax and due date of payment of service tax.

As per rule 2A of POT Rules, “Date of payment” shall be the earlier of the dates on which the payment is entered in the books of accounts or is credited to the bank account of the person liable to pay tax:

Provided that —
(A) the date of payment shall be the date of credit in the bank account when—

(i) there is a change in effective rate of tax or when a service is taxed for the first time during the period between such entry in books of accounts and its credit in the bank account; and

(ii) the credit in the bank account is after four working days from the date when there is change in effective rate of tax or a service is taxed for the first time; and

(iii) the payment is made by way of an instrument which is credited to a bank account,

(B) if any rule requires determination of the time or date of payment received, the expression “date of payment” shall be construed to mean such date on which the payment is received”.

As per Rule 3 of Point of Taxation Rules, Point of taxation shall be;

(a) the time when the invoice for service provided or to be provided is issued or

(b) in case where payment is received before the issue of invoice then the time when such payment is received or

(c) where advance is received by the service provider the time of receipt of such advance.

Rule 4A of the Service Tax Rules, 1994, provides that every person providing taxable service shall issue invoice within 30 days of completion of service or receipt of payment of service whichever is earlier.

Further proviso to Rule 3 of POT Rules, provides that where the invoice is not issued within 30 days of completion of service than the point of taxation shall the date of completion of such service.

Where the service tax is separately charged in the bill:

(i) in a case where the provision of service is for a consideration in money, be the gross amount charged by the service provider for such service provided or to be provided by him;

(ii) in a case where the provision of service is for a consideration not wholly or partly consisting of money, be such amount in money, with the addition of service tax charged, is equivalent to the consideration;

(iii) in a case where the provision of service is for a consideration which is not ascertainable, be the amount as may be determined in the prescribed manner.

Where the bill is inclusive of service tax:

Where the gross amount charged by a service provider, for the service provided or to be provided is inclusive of service tax payable, the value of such taxable service shall be such amount as, with the addition of tax payable, is equal to the gross amount charged. In this case, value of taxable services shall be calculated as follows:

\[
\text{Value of taxable Services} = \frac{\text{Gross Amount} \times 100}{100 + \text{Applicable rate of service tax}}
\]

Example:

Pawan rendered a taxable service to a client on 25-08-2012. A bill of ₹ 40,000 was raised on 29-08-2012; ₹15,000 was received from the client on 1-10-2012 and the balance on 23-10-2012.

(a) If service tax was separately charged in the bill, what is the value of taxable services and service tax payable?

(b) No Service tax was separately charged in the
- Is Pawan liable to pay service tax, even though the same has not been charged by him?
- In case, she is liable, what is the value of taxable services and service tax payable?

Solution

The bill is raised on 29-08-2012 but the payment is received in October 2012. As per Point of Taxation Rules, service tax shall be payable on or before 05-09-2012 or 06-09-2012 and not in October when payment is received.

Therefore, in this case service tax shall be payable as;

(a) Value of taxable service is ₹ 40,000, therefore service tax shall be payable @12% Plus Education @2% and SHEC@1%.

Service tax = ₹40,000 × 12.36% = ₹ 4944/-

(b) Pawan is liable to pay service tax even though the tax has not been collected by him. The service tax payable shall be;

= 40,000 × 12.36/112.36 = ₹ 4400/-

ABATEMENT IN SERVICE TAX

Abatement in Service Tax is a major relief to certain kinds of services which are chargeable to service tax. Finance Act 1994 provides that for determining value of service tax on which service tax is to be charged, abatement in value determination is allowed.

Abatement under service tax laws means that for certain services, a specified percentage of discount is allowed from the gross amount collected for rendering the services subject to the conditions that CENVAT Credit has not been availed by the service provider.

Notification No. 26/2012- ST dated 20/06/2012 provides the list of services on which abatement is allowed. It also provides for the percentage on which service tax is payable under the scheme of abatement. The concept of abatement may be understood with the help of this example;

As per notification no. 26/2012, railway is required to charge service tax only on 30% value of the Taxable services. Thereby by virtue of this provision, if railways receive an amount of ₹ 50 Lakh against the services, it needs to pay service tax only on ₹ 15 Lakh i.e. 30% value of ₹ 50 Lakh.

RECORDS TO BE MAINTAINED

Every assessee shall furnish to the Superintendent of Central Excise at the time of filing of return for the first time or the 31st day of January, 2008, whichever is later, a list in duplicate, of-

If return of service tax is not filed within the prescribed period penalty is leviable under section 77(2) which can be upto ₹10,000.

Rule 7C of Service Tax Rules, 1994 provides for penalty for delay in filing of service tax return. Accordingly late fee is payable as follows:

<table>
<thead>
<tr>
<th>Delay upto 15 days</th>
<th>₹ 500/-</th>
</tr>
</thead>
<tbody>
<tr>
<td>Delay beyond 15 days and upto 30 days</td>
<td>₹ 1,000/-</td>
</tr>
<tr>
<td>Delay beyond 30 days</td>
<td>₹1,000 + ₹ 100/- per day subject to a maximum of ₹ 20,000/ [the penalty prescribed in section 70(1)]</td>
</tr>

Penalty for late filing of return is specifically prescribed in Rule 7C subject to section 70 therefore if late fee is paid then no penalty prescribed under section 77(2) shall be leviable.

**PENALTIES AND PROSECUTION**

Penalty liable to be paid is ₹3,226.00.

(c) wilful mis-statement; or
(d) suppression of facts; or
(e) contravention of any of the provisions or of the rules with intent to evade payment of service tax the person shall be liable to pay service tax or erroneous refund, and

PROSECUTION

Section 89 was inserted by Finance Act, 2011 which provides for offences which can lead to prosecution. The prosecution was introduced in service tax to promote self compliance among the assessee. Further, sections 9A, 9AA, 9B, 9E and 34A of the Central Excise Act, 1944 have been made applicable service tax. These provisions together constitute the provisions relating to prosecution of offences.
CENVAT CREDIT RULES, 2004

The CENVAT Credit Rules, 2004 have replaced the existing Cenvat Credit Rules, 2002 and Service tax Credit Rules, 2002 with effect from 10th September 2004. The new Rules integrated services with goods. With the introduction of these rules, inter sectoral credit is allowed to be taken. Service tax paid on input service is allowed to be used for duty payable on final products removed. Similarly, excise duty paid on inputs is allowed to be used for paying service tax on output service.

Example:

Duty paid on raw plastic for the manufacture of plastic furniture is ₹ 20,000 and service tax paid on transportation i.e Goods Transport Agency of raw plastic of ₹ 10,000. The duty payable on the finished goods (plastic furniture) is ₹ 35,000 while paying the duty on plastic furniture; the manufacturer is allowed to deduct the amount already paid as excise duty and service tax (Input tax) on raw plastic. Thus, the net duty payable will be ₹5,000 only. Technically speaking, the manufacturer availed the cenvat credit to the extent of ₹ 30,000 that he paid on inputs and input service for manufacturing of plastic furniture.

Note: The provisions of CENVAT Credit Rules will be covered in detail at Professional Programme.

ROLE OF COMPANY SECRETARIES

There is a great scope for Company Secretaries in Practice in the area of service tax. A Practicing Company Secretary can render several services under the Service Tax such as;

- **Consultancy services:** The company secretaries can provide expertise services to their clients by explaining and interpreting the provisions of the transformed and upcoming legislations. For Example, the taxability of services shifted from selective approach to negative approach.

- **Compliance Services:** The Company Secretaries can help the client or employers to comply with the following procedural requirement:
  
  (a) Registration
  
  (b) Payment of tax
  
  (c) Maintenance of books and records
  
  (d) Availment and utilization of Cenvat Credit
  
  (e) Submissions of service tax returns.

- **Certified Facilitation Centres (CFCs):** Company Secretaries in Practice can set up CFCs under the Automation of Central Excise and Service Tax Project of CBEC to provide procedural compliance services to the assessees by charging fees.

LESSON ROUND UP

- Registration of service tax: Section 69 of the Finance Act, read with Rule 4 of the Service Tax Rules make provisions relating to registration. It is mandatory for every person liable to pay service tax to get registered with Superintendent of Central Excise. A person providing a taxable service is liable to pay service tax in terms of Section 68.

- An application for registration to the Superintendent of Central Excise can be made in form (ST-1). This is to be made within a period of thirty days from the date on which the service tax is leviable.

- Payment of service tax: With effect from 1st April 2011, Finance Act, 2011 introduced Point of Taxation (POT) Rules, 2011. These rules laid down the provisions relating to payment of service tax on accrual basis.
instead of receipt basis and specify the relevant date for determining rate of service tax. Point of taxation means the point in time when a service shall be deemed to have been provided. This Point of time will determine rate of service tax and due date of payment of service tax.

- **Reverse charge**: As per Section 68, every person providing taxable services i.e. provider of output service is liable to pay service tax. But in special cases service receiver is liable to pay service tax. This is known as reverse charge. Under this charge service receiver has to register himself under service tax. Further service receiver cannot claim general exemption limit of 10 Lakh rupees and he is liable to pay service tax even on small amount.

- **Section 67** provides for the method of valuation of taxable services i.e. the value on which service provider is required to discharge service tax. As per section 67, the valuation of taxable service shall be determined under the following two situations:
  - Service tax is separately charged in the bill
  - Bill value is inclusive of service tax

- **Abatement under service tax laws** means that for certain services, a specified percentage of discount is allowed from the gross amount collected for rendering the services subject to the conditions that CENVAT Credit has not been availed by the service provider.

- **Adjustment of Service tax**: Where an assessee has paid to the credit of Central Government any amount in excess of the amount required to be paid towards service tax liability for a month or quarter, the assessee may adjust such excess amount paid by him against his service tax liability for the succeeding month or quarter.

- **Maintenance of Accounts**: Every assessee is required to furnish to the Superintendent of Central Excise at the time of filing his return for the first time, a list of all accounts maintained by him in relation to service tax including memoranda received from his branch offices.

- **Filing of return**: Rule 7 of the Service Tax Rules, 1994 return under Service Tax is required to be filed by every assessee on half yearly basis in Form ST-3 or Form ST-3A, as the case may be, along with a copy of the Form GAR-7, in triplicate for the months covered in the half-yearly return. Every assessee shall submit the half yearly return by the 25th of the month following the particular half-year.

- **E-filing of return**: With effect from 1st October, 2011, every assessee is required to file half yearly return electronically.

- **Interest on late payment of service tax**: Every person, liable to pay the tax in accordance with the provisions of section 68 or rules made thereunder, who fails to credit the tax or any part thereof to the account of the Central Government within the period prescribed, shall pay simple interest at such rate not below 10% and not exceeding 36% p.a.

- **Doctrne of unjust enrichment**: Since service tax is indirect tax, it is recoverable from customer. If you recover the amount from customer and again claim refund, you will get double benefit. Hence, provision of ‘unjust enrichment’ has been made in the law. As per the doctrine of unjust enrichment, refund will be granted to assessee only if assessee had not passed on the tax burden to your customer/client. It will be presumed that assessee has passed on the burden of service tax.

- **Penalties**: Various penalties have been provided under the Act. The penalties can be imposed by Central Excise Officers. There is no provision for prosecution under the Act.

- **Role of Company Secretaries**: The educational background, knowledge, training and exposure that a Company Secretary has, makes him a versatile professional capable of rendering a wide range of services to companies of all sizes, other commercial and industrial organizations, small scale units, firms etc.

Government of India  
Ministry of Finance  
Department of Revenue  
Central Board of Excise & Customs

146-F, North Block,

To

Chief Commissioners of Central Excise and Customs (All), Director General (Service Tax), Director General(Systems), Director General (Central Excise Intelligence), Director General (Audit), Commissioners of Service Tax (All), Commissioners of Central Excise (All), Commissioners of Central Excise and Customs (All)

Madam/Sir,

Subject: Restoration of service specific accounting codes for payment of service tax - regarding

Negative List based comprehensive approach to taxation of services came into effect from the first day of July, 2012. Accounting code for the purpose of payment of service tax under the Negative List approach ["All Taxable Services" – 00441089] was prescribed vide Circular 161/12/2012 dated 6th July, 2012.
2. Subsequent to the issuance of the Circular, suggestions were received from the field formations that the service specific old accounting codes should be restored, for the purpose of statistical analysis; also it was suggested that list of descriptions of services should be provided to the taxpayers for obtaining registration. These suggestions were examined and a decision has been taken to restore the service specific accounting codes. Accordingly, a list of 120 descriptions of services for the purpose of registration and accounting codes corresponding to each description of service for payment of tax is provided in the annexure to this Circular.

3. Descriptions of taxable services given in the annexure are solely for the purpose of statistical analysis. On the advice of the office of the C & AG, a specific sub-head has been created for payment of “penalty” under various descriptions of services. Henceforth, the sub-head “other receipts” is meant only for payment of interest payable on delayed payment of service tax. Accounting Codes under the sub-head “deduct refunds” is not to be used by the taxpayers, as it is meant for use by the field formations while allowing refund of tax.

4. Registrations obtained under the positive list approach continue to be valid. New taxpayers can obtain registrations by selecting the relevant description/s from among the list of 120 descriptions of services given in the Annexure. Where registrations have been obtained under the description ‘All Taxable Services’, the taxpayer should file amendment application online in ACES and opt for relevant description/s from the list of 120 descriptions of services given in the Annexure. If any applications for amendment of ST-1 are pending with field formations, seeking the description ‘all taxable services’, such amendment may not be necessary and the officers in the field formations may provide necessary guidance to the taxpayers in this regard. Directorate General of Systems will be making necessary arrangements for display of the list of 120 descriptions of services and their corresponding Accounting Codes in Form ST-1 and Form ST-2 as may be necessary.

5. Officers in the field formations are instructed to extend necessary guidance to the tax payers regarding the selection of appropriate description of taxable service and facilitate the payment of service tax/cess due under the appropriate accounting code. Trade Notice/Public Notice may be issued to the field formations and tax payers. Please acknowledge receipt of this Circular. Hindi version follows.
