ICSI 'INFO CAPSULES' INITIATIVE LAUNCHED

CS (Dr.) Shyam Agrawal, President ICSI (seen in the centre) launching ICSI 'Info Capsules'

In this digital era, it is not only the speed of information by which it travels but also the quality of information. There is no dearth of information in this globalised digital world but selecting the best out of everything needs a thought process and is crucial.

Company Secretaries are an important part of the economy whose contributions range from compliance to governance to management. It is of utmost importance that they have a wide horizon of thinking which helps them in hugely participating in the success story of this great economy which is the fastest growing economy in the world. For this, it is necessary to provide Company Secretaries with the latest insights on issues which are not just limited to compliance or governance but which go much beyond that and contribute to their holistic development.

With this objective, the ICSI is happy to announce the launch of a new initiative called 'Info Capsules' on February 23, 2017 at the hands of CS (Dr.) Shyam Agrawal, President ICSI for its stakeholders. 'Info Capsules' will provide the easy access to information on all the recent developments and issues concerning not only the profession but the economy as a whole. Since such an effort would prove more useful if it is readily available to the stakeholders, it will be available through the Institute's mobile (app) as well as on the homepage of the ICSI website www.icsi.edu.

We are sure our stakeholders will take benefit of the initiative.
