

## “Launching of ICSI – Placement Services App”

Dear Professional Colleague,

The Institute of Company Secretaries of India (ICSI) continuously endeavours to provide support to its members for various career opportunities. The Institute has decided to dedicate its energies towards supporting the young members by providing suitable platform to find appropriate employment opportunities. The Directorate of Placement have productively imparted events and processes for improvising placement opportunities. The Directorate keeps organising Mega Placement Drives, Trainee Drives, HR Conclave, etc. and updates the placement portal which illustrates various Job opportunities for its members.

In its recent initiative, the Directorate of Placement have launched a Placement App empowering its members to view as well as post the job vacancies at their ease on a click of a button. The Placement app was launched in the PCS conference held at Mumbai on 18-19 May 2018. The app has features which enables the recruiters to place vacancies on real time basis. At the same time, members can view and apply for the job at their comfort. The app also enables the members to visit the placement page of the institute which further showcases information on vacancy at different locations and organisations.

We suggest all members to download the app from the Google play store and give wider usefulness and publicity for the benefit of the profession.
