Dear Professional Colleagues,

Peer Review is aimed towards maintenance as well as enhancement of quality of attestation services and to provide guidance to members to improve their performance and adhere to various statutory and other regulatory requirements.

Peer Reviewed practice units have been acknowledged to undertake the increased number of Secretarial Audit/ Annual Secretarial Compliance Reports. In this direction, the Council of the Institute has issued several guidelines focusing the importance of Peer Review and specifying clearly that going forward only Peer Reviewed units shall be allowed to undertake Secretarial Audit of the Companies and Annual Secretarial Compliance Report.

As the need for Peer Reviewed units are increasing, there is an enhanced need to equip the Peer Reviewers with Peer Review techniques, procedures and the skills required for conducting peer review.

The Peer Review Board of ICSI is pleased to share that the Training Programmes for Peer Reviewers is scheduled as follows:
