MISSION
“To develop high calibre professionals facilitating good Corporate Governance

As a step forward to align with the vision and mission of the Institute of Company Secretaries of India, the Institute has declared the year 2016 as the “Corporate Governance Year”. 
Round 1: CORPORATE GOVERNANCE WAY FORWARD

Corporate governance is one of the key factors that determine the health of the system and its ability to survive economic shocks. It helps to engender confidence in the stock market and hence in the economic environment as a whole, creating a more attractive environment for investment. In the past few years there has been increasing awareness of the role of corporate governance and effective implementation of principles of corporate governance in prevention and detection of financial and other corporate frauds.

The challenge before us is to create a system of governance that promotes, supports and sustains economic development — with special consideration to environment and long term sustainability. The emphasis on governance reforms is growing around the world.

There are new developments and improvements in corporate governance practices in the last decade relating to Role of Independent Directors, Diversity, Board Practices and Sustainability, which indicates the enhanced focus of stakeholders on independent audit committees, independent directors, executive compensation, fraud reporting etc., which needs to be analysed.

Round 2: INTERNATIONAL CORPORATE GOVERNANCE DAY - BENEFITS TO THE WORLD AND CORPORATE

Governance is such an important aspect, without which none can achieve harmony in the working patterns and further to this it has to evolve day in and day out in accordance with the changing requirements both internally and globally in each and every aspect.

Governance encompasses the state, but it transcends the state by including the private sector and civil society organisations. As observed from recent scenarios; all the countries are trying to implement good governance norms in all facets. Now the need of the hour is to leap forward and to have a day as an International Day for Corporate Governance, for creating awareness and celebrating determination towards international promotion and recognition of the corporate governance.

As an important initiative Institute would like to promote and create international consensus for “International Corporate Governance Day”.

Round 3: COLLABORATION ROUND

Today no single universal model of corporate governance exists nor is there a static, final structure in corporate governance that every country or enterprise should emulate.

As a platform to discuss and enumerate the possible methods and procedures for the adoption of Best Corporate Governance Practices by the entire world, it becomes all the more important to stand together to have an effective system of rules, practices and processes by which a corporate is directed and controlled.

PARTICIPATION

The conference will see the prominent members from the corporate world, regulators, professionals, academicians, researchers from throughout the world to discuss the corporate governance challenges in the light of current economic and social scenario.

The participation to the roundtable is by invitation only.
