He started his speech with line that "every great dream begins with a dreamer. Always remember, you have within you the strength, the patience, and the passion to reach for the stars to change the world & said that It is one of the biggest days in my life where in I am feeling blessed to address amongst you as Chairman of greatest professional body that is none other than our `very own glorious WIRC of ICSI.

In other words Company Secretaries are having potential and now they have to deliver as Entrepreneurs with this in mind theme for the year 2016 at our WIRC is – "Yesterday's DREAM"-"Today's REALTY"- "Tomorrow's VISION" which is elaborated as

Dreams –

Dreams are necessary. Without dreams, there will be no ambition to chase. There will be no goal to reach. We will all be nothing without dreams. Not having dreams is like following an invisible shadow. They motivate, inspire, improve and help you in achieving any goal that you want to achieve. It is the most important thing in life and without dreams, we will be nowhere.

Reality

The statement Reality is Absolute is the explicit recognition of the primacy of existence. This means that reality is not subject to wishes, whims, prayers, or miracles. If you want to change the world, you must act according to reality. Nothing else will affect reality.

Vision

A vision is a picture or idea you have in your mind of yourself, your business, or anything this is going to happen. A clear vision helps you pursue dreams and achieve goals; an idea of the future, a strong wish. A vision that is clear will open your mind to the endless possibilities of the future.

Keeping all the three in mind, let's do something together let's create Synergy to take ICSI to greater heights. Without an iota of doubt to be successful we are required to have more than acquaintance of various legislations but to put it straight we are required to have combination of various things and in that

definitely the sense of bonding amongst Company Secretaries in their own fraternity is the order of the day.
