INTRODUCTION

Financial Analysis and reporting is an integral part of overall financial analysis carried out by various business organizations in India and all around the world. It depicts the financial health and helps the companies to augment their financial resources and management of generated funds efficiently.

As professional, one need to use and interpret crucial financial data for making informed decisions. This online "Crash Course on Decoding Financial Statements" launched by ICSI demystifies accounting jargon and will assist in understanding financial statements and analyse them for well informed decisions.
