EMERGING TOOLS AND TECHNIQUES FOR PCS

15th of June – the date finds immense significance amongst the practising members of the Institute of Company Secretaries of India. Given the independent nature of the practising side of profession, the roles and responsibilities entrusted with this brigade of are not only unique but ever expanding. Each area of activity – brings in the question of governance – and hence the presence of a PCS.

As we celebrate the recognition connected to the date, we also celebrate the dedication portrayed, the resolve of independence followed, and the support extended to not just the corporates but to their own peers in employment.

With the aim of understanding the right ways and means to pursue professional actions, we are pleased to inform you that the June 2026 issue of Chartered Secretary Journal will be devoted to the theme **EMERGING TOOLS AND TECHNIQUES FOR PCS** covering *inter alia* the following aspects:

- ❖ AI and Automation in Secretarial Practice
- ❖ Digital Transformation in Corporate Compliance
- ❖ E-Adjudication, E-Hearings and Virtual Compliance Mechanisms
- ❖ Forensic Secretarial Audit and Fraud Detection Tools
- ❖ ESG Compliance and Sustainability Reporting Technologies
- ❖ Cybersecurity and Data Protection Compliance
- ❖ RegTech Solutions for Practising Company Secretaries
- ❖ Cloud-Based Compliance and Documentation Systems
- ❖ Role of PCS in Startup and Tech Ecosystems

And many more...

The length of the article should ordinarily be between 2,500 - 4,000 words. However, a longer article can also be considered if the topic of discussion so demands. The articles should be forwarded in MS-Word format.
