

Dear Stakeholders,

The Institute revises the syllabus of the Company Secretaryship Course from time to time to reflect the latest developments in the financial, economic, social, technological, legal and regulatory landscape. This ensures that the future Company Secretaries are well-equipped and competent to contribute effectively to the corporate sector, industry, regulatory bodies, and other stakeholders.

Accordingly, the Existing Syllabus 2022 is to be revised in the light of the following factors:

- Alignment with National Education Policy and global standards with a focus on a pedagogy that emphasizes experiential learning and skill-based education.
- Integration of technology to reflect the evolving digital and compliance landscape.
- Student Centric approach with more flexible, inclusive and accessible curriculum.
- Alignment with changing expectations of the industry, regulators and other stakeholders.
- Continuous assessment and competency-based evaluation methods.

In this regard, we invite your valuable suggestions, opinions and comments on the existing syllabus.

Accordingly, a Questionnaire has been prepared, broadly focusing on the areas catering to the profession of Company Secretaries, inculcating experiential learning, technology integration, more facilitation to the students, etc.

Your valuable responses on the questions covering various crucial facets of New Syllabus will help us align the curriculum with practical industry needs, technological advancements, and regulatory developments, ensuring that future Company Secretaries are well-equipped to add meaningful value.

You are requested to submit your response latest by May 10, 2026 at following link:
