Dear Professional Colleagues,

We express our thanks to you for getting registered as delegate of the 40th National Convention of Company Secretaries scheduled to be held on October 4-6, 2012 at Aamby Valley.

At the ensuing National Convention, we are expecting to have more than 1000 delegates and we are to inform you that the requests for residential delegation have exceeded the number of accommodation available at Aamby Valley and at Hotel Fariyas.

Under the circumstances, we regret to inform that the Institute has decided to close the registration of delegates even on Non-Residential basis with immediate effect due to logistic constraint.

We, however, appreciate the enthusiasm amongst our members in respect of the ensuing National Convention. Members who will not be able to attend the National Convention can however view the video recordings of the Convention at ICSI Knowledge Portal. Date of such availability will be intimated separately.

Members and other delegates who have registered for the National Convention are once again requested to send their travel itinerary in the format sent by the Institute latest by September 25, 2012 to transport@icsi.edu so that pick up facilities from specific points both at Mumbai, Pune and Lonavala can be arranged at the respective pickup points before the commencement of the journey for attending the National Convention.

We once again wish to express our gratitude for your overwhelming response for the 40th National Convention.

Regards

(N K Jain)
Secretary & CEO
Every moment, the world is in transition, so the change is a constant and dynamic process. What is more important in today's context is the speed of change in all spheres of human endeavour. Change becomes value driven only when the determination to bring change is defined and well versed. Change cannot result in value added proposition unless it is driven in a right perspective.

The vision to bring change commences with a tiny step and such vision is called "to transform". The transformation - a radical change that catapults one into another dimension of existence, possibly the one that is not feasible without being transformed. Every paradigm needs a defined vision to stir the imagination and creativity with motivation and determination leading to transformation.

Vision 2020 in its broader perspective is metamorphic in nature requiring to transform from the nascent stage to a level where the whole structure is redefined not only in confirmation to the present but in conformation to future. Vision 2020 is to lay foundation for proactive changes igniting minds to create niche.

One may find the similar connotations for the terms 'transform' and 'conform' when viewed and applied in the context of corporate environment, which has seen an array of reforms in terms of enactment of new legislations, mobilisation of capital market, inflow of foreign capital, growth in number of MNCs etc. and has opened new opportunities for professionals like Company Secretaries.

These opportunities could be realised into value added propositions only when there is transformation and conformation to the expectations of change that would lead to performance enactment for a sustainable competitive advantage. It is not a one time exercise. As the change is constant and dynamic, the efforts should also be proportionately constant and dynamic.
reasoning out the ways to mitigate the risk inherent in volatile economic conditions.

Second Technical Session: Panel Discussion
CS - Whistle Blower or Conscience Keeper

Whistle Blower or Conscience Keeper! Though, *prima facie* both the words may sound synonymous, there is a thin line of demarcation between the two. Whistle blowing is about speaking out on malpractice, misconduct, corruption, or mismanagement; whereas, conscience is an inner voice viewed as acting as a guide to the righteous behaviour.

The line of demarcation is that while whistle blowing pertains to the situation after the wrong is done or about to be done the conscience of a person stops one from committing the wrong. These are two sides of the boat, where keeping inside the boat is as important as keeping outside.

Economic volatility, global competition, growing risk appetite demands the governance professionals, the Company Secretaries to prioritise their role as Conscience Keeper and Whistle Blower.

In this backdrop, the second technical session is devised to deliberate as to how the Company Secretaries should prioritise their role as conscience keeper and Whistle Blower.

In recent years, an increasing amount of attention has been devoted to the connection between financial markets and economic development. One of the most enduring debate is "whether financial development adds to economic growth or increased economic activities results in financial development."

Indian economy has grown at an unprecedented pace over a period of time attracting foreign investment, expansion of capital market, greater interface of domestic businesses with global counterparts. This growth is attributed to open market policies enabling regulatory environment and infrastructure development.

Financial sector reforms being one of the factors for driving growth of an economy, this technical session has been devised to deliberate on the measures that have been taken by the Government to improve the growth of the economy via financial markets.

Fourth Technical Session - Panel Discussion
Challenges and Opportunities for SME Sector

SMEs are universally acknowledged as major contributors of economic growth process and even larger contributors to exports and employment. In the Indian context, the critical role and place of the SME sector cannot be over-emphasized in employment generation, exports and inclusive growth.

SME sector is facing new challenges in the wake of increasing globalization and there is a pressing need for this sector to reinvent itself by enhancing its efficiency and productivity in order to remain competitive, both domestically as well as internationally. It is in that context the Government has accorded priority to this sector in order to achieve balanced, sustainable and more equitable economic growth.

The next level of growth in the Indian economy will have to necessarily come from the SME sector. In order to transform India into a major manufacturing hub, the Indian SMEs must embrace change so that they can find a place for themselves in the global competitive environment.

This technical session has been structured to deliberate upon the challenges of SME sector, government initiatives and the role of professionals to provide the SMEs an enabling environment for a visible and sustained growth.
