17/70/2011 –CL.V  
Government of India  
Ministry of Corporate Affairs  

5th Floor, A Wing, Shastri Bhavan,

Dated the 31.03.2011

Subject: Filing of Balance Sheet and Profit and Loss Account in eXtensible Business Reporting Language( XBRL) mode.

It has been decided by the Ministry of Corporate Affairs to mandate certain class of companies to file balance sheets and profit and loss account for the year 2010-11 onwards by using XBRL taxonomy. The Financial Statements required to be filed in XBRL format would be based upon the Taxonomy on XBRL developed for the existing Schedule VI, as per the existing, (non converged) Accounting Standards notified under the Companies (Accounting Standards) Rules, 2006. The said Taxonomy is being hosted on the website of the Ministry at www.mca.gov.in shortly. The Frequently Asked Questions (FAQs) about XBRL have been framed by the Ministry and they are being annexed as Annexure I with this circular for the information and easy understanding of the stakeholders.

Coverage in Phase I

2. The following class of companies have to file the Financial Statements in XBRL Form only from the year 2010-2011 :-

(i) All companies listed in India and their subsidiaries, including overseas subsidiaries;

(ii) All companies having a paid up capital of Rs. 5 Crore and above or a Turnover of Rs 100 crore or above .

Additional Fee Exemption

3. All companies falling in Phase -I are permitted to file upto 30-09-2011 without any additional filing fee.

Training Requirement

4. Stakeholders desirous to have training on the XBRL or on taxonomy related issues, may contact the persons as mentioned in Annexure II.
1. What is XBRL?

XBRL is a language for the electronic communication of business and financial data which is revolutionizing business reporting around the world. It provides major benefits in the preparation, analysis and communication of business information. It offers cost savings, greater efficiency and improved accuracy and reliability to all those involved in supplying or using financial data. XBRL stands for eXtensible Business Reporting Language. It is already being put to practical use in a number of countries and implementations of XBRL are growing rapidly around the world.

2. Who developed XBRL?

XBRL is an open, royalty-free software specification developed through a process of collaboration between accountants and technologists from all over the world. Together, they formed XBRL International which is now made up of over 650 members, which includes global companies, accounting, technology, government and financial services bodies. XBRL is and will remain an open specification based on XML that is being incorporated into many accounting and analytical software tools and applications.

3. What are the advantages of XBRL?

XBRL offers major benefits at all stages of business reporting and analysis. The benefits are seen in automation, cost saving, faster, more reliable and more accurate handling of data, improved analysis and in better quality of information and decision making. XBRL enables producers and consumers of financial data to switch resources away from costly manual processes, typically involving time-consuming comparison, assembly and re-entry of data. They are able to concentrate effort on analysis, aided by software which can validate and process XBRL information. XBRL is a flexible language, which is intended to support all current aspects of reporting in different countries and industries. Its extensible nature means that it can be adjusted to meet particular business requirements, even at the individual organization level.

4. Who can benefit from using XBRL?

All types of organizations can use XBRL to save costs and improve efficiency in handling business and financial information. Because XBRL is extensible and flexible, it can be adapted to a wide variety of different requirements. All participants in the financial information supply chain can benefit, whether they are preparers, transmitters or users of business data.

5. What is the future of XBRL?

XBRL is set to become the standard way of recording, storing and transmitting business financial information. It is capable of use throughout the world, whatever the language of the country concerned, for a wide variety of business purposes. It
will deliver major cost savings and gains in efficiency, improving processes in companies, governments and other organisations.

6. Does XBRL benefit the comparability of financial statements?

XBRL benefits comparability by helping to identify data which is genuinely alike and distinguishing information which is not comparable. Computers can process this information and populate both pre defined and customised reports.

7. Does XBRL cause a change in accounting standards?

No. XBRL is simply a language for information. It must accurately reflect data reported under different standards – it does not change them.

8. What are the benefits to a company from putting its financial statements into XBRL?

XBRL increases the usability of financial statement information. The need to re-key financial data for analytical and other purposes can be eliminated. By presenting its statements in XBRL, a company can benefit investors and other stakeholders and enhance its profile. It will also meet the requirements of regulators, lenders and others consumers of financial information, who are increasingly demanding reporting in XBRL. This will improve business relations and lead to a range of benefits.

With full adoption of XBRL, companies can automate data collection. For example, data from different company divisions with different accounting systems can be assembled quickly, cheaply and efficiently. Once data is gathered in XBRL, different types of reports using varying subsets of the data can be produced with minimum effort. A company finance division, for example, could quickly and reliably generate internal management reports, financial statements for publication, tax and other regulatory filings, as well as credit reports for lenders. Not only can data handling be automated, removing time-consuming, error-prone processes, but the data can be checked by software for accuracy.

9. How does XBRL work?

XBRL makes the data readable, with the help of two documents – Taxonomy and instance document. Taxonomy defines the elements and their relationships based on the regulatory requirements. Using the taxonomy prescribed by the regulators, companies need to map their reports, and generate a valid XBRL instance document. The process of mapping means matching the concepts as reported by the company to the corresponding element in the taxonomy. In addition to assigning XBRL tag from taxonomy, information like unit of measurement, period of data, scale of reporting etc., needs to be included in the instance document.

10. How do companies create statements in XBRL?

There are a number of ways to create financial statements in XBRL:

XBRL-aware accounting software products are becoming available which will support the export of data in XBRL form. These tools allow users to map charts of accounts and other structures to XBRL tags.

Statements can be mapped into XBRL using XBRL software tools designed for this purpose.
Walk, ride a bike, or use public transportation whenever possible.

Keep vehicles well maintained. Under-inflated tires and dirty air-intake filters can significantly reduce gas mileage.

Data from accounting databases can be extracted in XBRL format. It is not strictly necessary for an accounting software vendor to use XBRL; third party products can achieve the transformation of the data to XBRL.

Applications can transform data in particular formats into XBRL. The route which an individual company may take will depend on its requirements and the accounting software and systems it currently uses, among other factors.

11. Is India a member of XBRL International?

India is now an established jurisdiction of XBRL International. A separate company, under section 25 has been created, to manage the operations of XBRL India. The main objectives of XBRL India are

To create awareness about XBRL in India
To develop and maintain Indian Taxonomies
To help companies, adopt and implement XBRL.

For more information, visit www.xbrl.org/in

12. Which taxonomies developed for Indian reporting requirements? Where can I find the taxonomies?

Taxonomies for Indian companies are developed based on the requirements of

Schedule VI of Companies Act,
Accounting Standards, issued by ICAI
SEBI Listing requirements.

Taxonomies for Manufacturing and service sector (referred as Commercial and Industrial, or C&I) and Banking sector, is acknowledged by XBRL International. These taxonomies are available at http://www.xbrl.org/in/

13. Where can I find more information about XBRL?

Please visit www.xbrl.org . Also Ministry of Corporate Affairs would be shortly developing its webpage on XBRL with list of contact persons for training purposes.

14. What are XBRL Documents?

An XBRL document comprises the taxonomy and the instance document. Taxonomy contains description and classification of business & financial terms, while the instance document is made up of the actual facts and figures. Taxonomy and Instance document together make up the XBRL documents.

15. What is Taxonomy?

Taxonomy can be referred as an electronic dictionary of the reporting concepts. Taxonomy consists of all the data definitions, the basic XBRL properties and the interrelationships amongst the concepts. It includes terms such as net income, EPS, cash, etc. Each term has specific attributes that help define it, including label and definition and potentially references. Taxonomies may represent hundreds or even thousands of individual business reporting concepts, mathematical and definitional relationships among them, along with text labels in multiple languages, references
to authoritative literature, and information about how to display each concept to a user.

16. What is meant by extending taxonomy?

Taxonomy is extended to accommodate items/relationship specific to the owner of the information. Taxonomy extension therefore can be

a) Modification in the existing relationships

b) Addition of new elements in the taxonomy

c) Combination both a & b

17. Are Taxonomies based on any standards?

Yes, taxonomies are based on the regulatory requirements and standards which are to be followed by the companies. Accordingly, depending on the requirements of every country, there can be country-specific taxonomies.

18. What is an Instance document?

An XBRL instance document is a business report in an electronic format created according to the rules of XBRL. It contains facts that are defined by the elements in the taxonomy it refers to, together with their values and an explanation of the context in which they are placed. XBRL Instances contain the reported data with their values and “contexts”. Instance document must be linked to at least one taxonomy, which defines the contexts, labels or references.

Thus, in order to concluded the usage and explain the XBRL technology which leads to more information exchanges that can be effectively automated by use. Dated the 25th March, 2011

To,
All Regional Directors,
All Registrars of Companies,

Sub: Prosecution of Directors – Regarding

Sir,

Penal actions for defaults committed under the Companies Act, 1956 are either to be taken against an “officer in default” or a “director(s)” or “persons” as provided in the relevant penal provisions of the Act. Section 5 of the Companies Act, 1956, defines officer in default and the Directors are also liable for compliance of various provisions of the Act.

2. It is noticed that penal actions are also initiated against certain Directors who are not charge with the responsibility, particularly in following cases:--

(a) For listed companies Securities and Exchange Board of India (SEBI) requires nomination of certain Directors designated as Independent Directors.

(b) For public sector undertakings, respective Government nominates Directors on behalf of the respective Government.

(c) Various public sector financial institutions having participation in equity of a company also nominate Directors to the Board of such companies.
(d) Directors nominated by the Government u/s 408 of the Companies Act, 1956.

In supersession of all earlier circulars, it is clarified that Registrar of Companies should take extra care in examining the cases where above Directors are also identified as Officer in default. No such Directors as indicated above shall be held liable for any act of omission or commission by the company or by any officers of the company which constitute a breach or violation of any provision of the Companies Act, 1956, and which occurred without his knowledge attributable through Board process and without his consent or connivance or where he has acted diligently in the Board process. The Board process includes meeting of any committee of the Board and any information which the Director was authorised to receive as Director of the Board as per the decision of the Board.

No.2/13/2003/CL- V

3. It is further clarified that before taking penal action under the Companies Act, 1956 against the Directors the following compliances should be verified by Registrar of Companies: -

(a) A director resigns and the company does not file Form 32 as required in terms of Section 302(2) of the Act. In case, the director concerned has informed/endorsed a copy of his resignation to the Registrar of Companies, the Registrar should enquire into such cases and try to find out whether such director has actually resigned or not.

(b) In case the status of a director, i.e. whether he is a nominee director or not, is not reflected in the Annual Return or other documents of the company, available with Registrar, the same should be cross checked with the Annual Report filed by the company;

(c) The timing of the commission of offence is also material to identify the director’s responsibility; and Form 1AB should also be checked in case any person has been charged by the Board under Section 5(f) with the responsibility of complying with some particular provision or in case any director has been specified by the Board under Section 5(g) of the Act.

(d) Special Directors appointed by BIFR under section 16 (6)(b) of SICA 1985, shall not incur any obligation or liability for anything done or omitted to be done in good faith and in discharge of duties. Hence they shall be excluded in the list of officers in default.
4. For default u/s 209(5), 209(6), 211 and 212 of the Act, the following persons shall be the ‘officers in default for the purpose of prosecution under these provisions :-

(a) Where there is a Managing Director or Manager, the Managing Director or the Manager as the case may be and in addition, the Company Secretary appointed u/s 383A or the person who has been charged with work of maintenance and preparation of Annual Accounts in compliance with aforesaid provisions.

(b) Where there is no Managing Director or Manager, every director and the Company Secretary appointed u/s 383A of the Act .

(c) Any persons amongst officers and employees other than Managing Director/Manager/Directors who has been charged by the Managing Director/Manger or Board of Directors with specific responsibility of complying with aforesaid provisions, in addition to Managing Director/Manager/Board of Directors as the case may be.

(d) Directors including Non-Executive Directors, officers and employees not connected with responsibility with the above provisions should not be arrayed as delinquent directors.

(e) While considering the non-executive directors for including in the list of officers in default for a particular violation of the Companies Act, it should be examined whether the violation has taken place with his knowledge attributable through board process, with his consent or connivance and whether he acted diligently or not.

(f) Where prosecution is required to be filed against any Government company, its directors/officers and Member of Parliament and Member of Legislator under the Companies Act, 1956, Registrar of Companies should seek prior authorization of Central Government in terms of Section 621 of the Act.

5. There should be proper application of mind on the part of Registrar of Companies in deciding whether a person to be implicated is an ‘officer in default’ by examining the Annual Return, Form 32(s) and DIN database available in the Registry. The guidelines issued herein above should be applied and wrongful prosecution should be avoided. Wherever the Registrar of Companies have doubt as to whether director/officer can be held liable after applying the above parameters, they should refer to
Regional Director, who shall guide Registrar of Companies in the matter.

6. All cases which are pending against Directors of companies above must be relooked at, based on these parameters and a report must be sent by each Regional Director with specific recommendation in case the proceedings are proposed to be discontinued.

Yours faithfully

CIRCULAR

Sub: Payment of MCA fees –electronic mode-regarding

Ministry has reviewed the processes involved in delivery of important services to stakeholders, with a view to identify and improve the components causing delay in disposal of applications. Payment confirmation is found to be a major bottleneck in delivery of services in respect of offline payment made by physical challans. It was found that often there was a delay in confirmation of payments by physical challans, as banks have been given a reporting time of ‘T’+3 days, as per payment procedure approved by C&AG, ‘T’ being the transaction date. This leads to delay in creation of work item for disposal of an application/e-form, leading to inconvenience of stakeholders. On the other hand, it was found that wherever fees were paid online in the system, the work item was created faster and the approvals were speedier as banks are following ‘T’+1 for reporting online payments.

2. In the interest of stakeholders, with a view to improving service delivery time, Ministry has decided to accept payments of value upto Rs.50,000, for MCA 21 services, only in electronic mode w.e.f 27th March, 2011.

3. For the payments of value above Rs. 50,000, stakeholders would have the option to either make the payment in electronic mode, or paper challan. However such payments would also be made in electronic mode w.e.f .1st October 2011.

Yours faithfully,
