Message from the President

"Hope lies in dreams, in imagination, and in the courage of those who dare to make dreams into reality."

~ Jonas Salk

Dear Students,

As the entire world prepares to Welcome 2023 and bids adieu to 2022, alongside the festival of hope and happiness – Christmas, the CS Students have something more to prepare for.

In view of the euphoria around, the brightness of lights and sweetness of cakes & muffins, I would want all the students to pursue their preparations keeping their spirits and hopes for success pretty high.

Call it human nature, the mere act of being tested and judged puts us in a place of juxtaposition with stress. But the gleam on your face should in no circumstance give way to any sort of tension or pressure that one might feel while nearing examinations.

Friends, having been through the journey myself, I can very well assure you that every step of the way, of gaining a professional qualification, of taking the examinations – the very road that leads to the goal is equally, if not more than, ‘exhilarating’.

There is so much to learn, to grasp, to understand, and to analyse that the feeling of amazement and wonder washes away every possible fear - and as a true professional in making, I believe you should focus on just that.

For it is during these phases of learning, you may be inclined towards selective study but to attain excellence in academics and professional endeavours always espouse holistic learning approach.

With hope and optimism, I extend my best wishes to each one of you for the upcoming December Session of Examinations. I hope that you will pass out with flying colours...

May the lamp of wisdom keep enlightening each one of us eternally !!!

Warm regards,

(CS Devendra V. Deshpande)

An Overview of Infrastructure Sector Scenario of India*

Introduction

Infrastructure sector is a key driver for the Indian economy. The sector is highly responsible for propelling India's overall development and enjoys intense focus from Government for initiating policies that would ensure time-bound creation of world class infrastructure in the country. Infrastructure sector includes power, bridges, dams, roads, and urban infrastructure development. In other words, the infrastructure sector acts as a catalyst for India's economic growth as it drives the growth of the allied sectors like townships, housing, built-up infrastructure and construction development projects.

In order to meet India's aim of reaching a US\$ 5 trillion economy by 2025, infrastructure development is the need of the hour. The government has launched the National Infrastructure Pipeline (NIP) combined with other initiatives such as 'Make in India' and the production-linked incentives (PLI) scheme to augment the growth of infrastructure sector. Historically, more than 80% of the country's infrastructure spending has gone toward funding for transportation, electricity, and water& irrigation.

Key Initiatives in Union Budget 2022-2023

- In Union Budget 2022-23:
 - The government has given a massive push to the infrastructure sector by allocating Rs. 10 lakh crore (US\$ 130.57 billion) to enhance the infrastructure sector.
 - The government allocated Rs. 134,015 crore (US\$ 17.24 billion) to National Highways Authority of India (NHAI).
 - The government announced an outlay of Rs. 60,000 crore (US\$ 7.72 billion) for the Ministry of Road Transport and Highways.
 - The government announced Rs. 76,549 crore (US\$ 9.85 billion) to the Ministry of Housing and Urban Affairs.
 - The government allocated Rs. 84,587 crore (US\$ 10.87 billion) to the Department of Telecommunications to create and augment telecom infrastructure in the country.
 - The total revenue expenditure by Railways is projected to be Rs. 234,640 crore (US\$ 30.48 billion)
 - 100 PM-GatiShakti Cargo Terminals for multimodal logistics facilities will be developed over next three years.
 - Focus was on the PM GatiShakti - National Master Plan for multimodal connectivity to economic zones. Everything, from roads to trains, from aviation to agriculture, as well as many ministries and departments, will be integrated under the PM GatiShakti National Master Plan.

Developments in selected Infrastructures

Roads & Highway – Leading the way

The Roads and Highways sector of India has been at the forefront of establishing public private partnerships in the country. With a plan to double national highways in India to 200,000 km, the 'Bharatmala Pariyojana' was launched for developing 66,100 km of additional road network including expressways, economic corridors, international and border roads. Innovative financing models such as recycling of existing and operational roads, through Toll-Operate-Transfer, are being implemented to generate funding for greenfield road construction. Over the last two years, we have witnessed that despite the pandemic affecting multiple sectors, infrastructure construction has continued to grow. For example, despite the challenges put forth by the pandemic, India has been constructing 37 km of roads per day.

Airports – Taking off

During the pre-COVID period, India was clocking consistent double-digit growth with domestic aviation market on path to make the third largest aviation market in the world by 2027. To meet the huge demand, 100 new airports are being built and 400 existing airports upgraded.

Railways – New growth tracks

The Railways sector in India has also opened to 100 per cent FDI in the infrastructure segment and is inviting private participation across railway stations, private train operations etc. To augment freight traffic, six dedicated freight corridors are being built to minimise movement time. Further, seven High Speed Railways (HSRs) are also being constructed with the first one between Mumbai and Ahmedabad already under implementation.

Energy – A renewed approach

India is at the global forefront to adopt renewable sources of energy to meet its requirements. The country is targeting 450GW of energy to come from renewable energy sources by 2030, which will require a multi-fold growth in the sector from the existing installed capacity of 101 GW.

Other Major Developments

- In September 2022, the government approved rail-cum-road bridge across Brahmaputra river near the existing Saraighat bridge at Guwahati at the cost of Rs. 996.75 crore (US\$ 122.27 million) which will be shared by NHAI & Ministry of Railways.
- In August 2022, Minister of Road Transport and Highways laid foundation stone of six national highways projects worth Rs.2,300 crore.
- FDI in construction development (townships, housing, built-up infrastructure and construction development projects) and construction (infrastructure) activity sectors stood at US\$ 26.22 billion and US\$ 28.64 billion, respectively, between April 2000 - June 2022.

Conclusion

India is at an inflexion point of greater economic prosperity. India's journey on the path of economic reforms has transformed it to one of the world's fastest growing major economies where infrastructure has played a key part in overall development and growth over the past decade. All infrastructure sectors in India provide excellent opportunities for Public Private Partnerships (PPP) with models curated for implementation and funding of projects in the country.

The country has an evolved outlook towards infrastructure development in the country, wherein it has moved from need-based planning to an integrated long-term development strategy. In the realisation of

this goal, the Hon'ble Prime Minister launched the PM Gati Shakti National Masterplan for Multi-Modal Connectivity.

The US\$1.4 trillion National Infrastructure Pipeline is projected to attract 22% investment from the private sector, which translates into over US\$300 billion. Over the last few years, the country has been working in a dedicated manner for rationalised risk sharing mechanisms to attract private capital into infrastructure. In this regard, India has built a strong PPP framework over last two decades including development of Model Concession Agreements and bid documents, high-quality viability gap funding schemes, strong banking, and financing institutions and most importantly, capacities in the private sector for delivering the quantum of infrastructure that are required for bridging the infrastructure gap.

“शहीद की बेटी” (Martyr's Daughter)

Dear Students,

It is indeed an honour to be a part of an Institute which has attained institutional excellence and is a torch bearer for the cause of Good Corporate Governance.

As part of social responsibility and in alignment towards the initiatives of Government of India the scheme “Shaheed Ki Beti” was launched during the Golden Jubilee ceremony and the Institute got the privilege to confer the first certificate under this scheme to the Prime Minister of India, Sh. Narendra Modi on 4th October 2017.

Under 'Shaheed Ki Beti' scheme, the Institute is providing financial support to the girl child of martyrs for her higher education.

A separate fund has been created and the amount accumulated under the Fund “Shaheed ki Beti” is donated to the concerned wing of Ministry of Defence. Institute has already donated Rs. 15 lac under the scheme in the recent past.

The Institute acknowledges the contribution of the stakeholders who are generously donating towards the “Shaheed Ki Beti” initiative of the Institute on their Birthdays or otherwise.

Shaheed Ki Beti scheme has given us an opportunity to support our courageous martyred soldiers and their bereaved families. Through this unique scheme, Institute will definitely bring a radical change in the life of families of the valiant martyrs who have laid their lives while upholding the sovereignty and integrity of the country.

We request all other members and students of ICSI to come forward and contribute for this noble initiative.

The amount can be transferred online as per details given below.
