FROM THE SECRETARY & CEO’S DESK

All successful people have a goal. No one can get anywhere unless he knows where he wants to go and what he wants to be or do.  
– Norman Vincent Peale

Dear Students,

All of us have, deep in our mind and hearts, things we wish to accomplish. Many of us hesitate to start for fear of failure. Don't be afraid of failure, the success lies in failures. Do not wait to be good enough to start. You don't have to be good to start, you have to start to be good.

I am happy that you are those few who acted upon to be a Company Secretary - A professional who is the backbone of Corporate Governance. Let me tell you that you are sure to get the first mover advantage. The people who make choices regarding their career early in their life are the ones who reach the top echelons of corporate ladders. Steadily they accomplish what they ever had in their mind and heart.

The results for the CS Foundation Exams held in December 2009 were declared on February 25, 2010. It gives me immense pleasure that many of you were able to clear the exam. Yet there were a number of students who could not get through to the next level of the CS Course. I wish to reiterate what I have said in my earlier communications and which I believe to the core of my heart - DO NOT GIVE UP. Start afresh with a clear purpose in mind, make a fair assessment of your previous preparations, put up a realistic schedule of studies and make sure that you stick to your schedules. Remember Thomas A. Edison, who once said, "Our greatest weakness lies in giving up. The most certain way to succeed is always to try just one more time." So, "Arise! Awake! And Stop Not Till the Goal is achieved."

I wish you incredible success in your studies.

C.S. FOUNDATION COURSE BULLETIN
ECONOMIC SURVEY 2009-10 – AN OVERVIEW

The pre budget Economic Survey presented by the Union Finance Minister Shri Pranab Mukherjee to the Parliament on 25th February 2010 reveals that the economy has bounced back from the global economic slowdown and is on its way to the growth path of 9 per cent in near future. This would lead to India becoming the world's fastest growing economy in a short time span of just 4 years. The CSO estimate of 7.2 per cent GDP growth for 2009-10 reflects the fast paced recovery given the Index of Industrial Production (IIP) posting a record 16.8 per cent year-on-year growth during the month of December 2009. The Survey also states that the economy has responded well to the policy measures undertaken in the wake of global financial crisis. The adverse impact due to the delayed and sub-normal monsoon has been contained to a large extent. The Survey expects better than average rabi agricultural crop. The Survey points out that the recovery is well founded with pick up in merchandise exports, capital flows and non-bank food credit.

Some of the important highlights of the Survey include the following:

- The advance estimates of GDP growth at 7.2 percent for 2009-10, falls within the range of 7.0 - 7.75 projected nearly a year ago in the economic survey 2008-09 with the down side risk to growth due to delayed and sub-normal monsoon having been contained to a large extent. The likelihood of a better than average rabi agricultural seasons, the economy has responded well to the policy majors undertaken in the wake of global financial crisis.

- The recovery of GDP growth for 2009-10 is based on 7 out of 8 sectors, sub-sectors show a growth rate of 6.5% or higher. The expectation as anticipated, in agricultural and allied sectors where the growth rate is estimated to be -0.25% over 2008-09.

- Sectors including mining and quarrying; manufacturing and electricity, gas and water supply have significantly improved their growth rates at over 8% in comparison with 2008-09.

- The Construction sector and trade, hotels, transport and communication have also improved their growth rate over the preceding year, though to a less extent.

- The growth rate in per capita income and consumption, which are gross measures of welfare in general, have declined in the last two years.

- A growth of 4.1 % is expected in private final expenditure and 8.2% in government final expenditure during 2009-10.

- The total food grain production in 2008-09 was estimated at 233.8 million tonnes as against 230.78 million tonnes in 2007-08 and 217.28 million tonnes in 2006-07. In the agricultural session 2009-10, the impact of the delayed sub-normal monsoon is reflected in the production and acreage data for kharif crops. As per the first advance estimate covering only the kharif crops, production of food grains is estimated at 98.83 million tonnes in 2009-10, as against the four year average of 117.70 million tonnes. For the kharif crops in 2009 and a target 125.15 million tonnes for 2009-10.

- Core industries in the infrastructure services laid by robust growth momentum of telecom services and spread across power, coal and other infrastructure like ports, civil aviation and roads have also shown sign of recovery in 2009-10.

- The Service Sector which has been India's work horse for well over a decade has continued to good rapidly.

- Gross domestic savings (GDS) at current prices in 2008-09 were estimated at 32.5% of GDP at market price as against 36.4 % in the previous year.

- Gross domestic capital formation (GDCF) at current prices increased from 32.7% in 2004-05 to 37.7% in 2007-08 before declining to 34.9% in 2008-09.

- The year-on-year WPI inflation rate has been fairly volatile in 2009-10. It was 1.2% in March 2009 and then decline continuously to become negative during June-August 2009. It turned positive in September 2009 and accelerated 2.48% in 2009 and further to 7.3% in December 2009. For the fiscal year so far (March over December 2009) WPI inflation is estimated at 8%. A significant part of this inflation can be explained by supply side bottlenecks in some of the essential commodities precipitated by the delayed and sub-normal south west monsoon as well as drought like conditions in some part of the country.

- The export and imports data for the fiscal year 2009-10 showed substantial decline during April-September 2009-10 vis-a-vis the corresponding year 2008-09.

- Foreign exchange reserves increased by US dollar 31.5 billion from US dollar 252 billion in end Mach 2009 to US dollar 283.5 billion in end December 2009.

- Since outbreak of the global financial crisis in September 2010, the RBI has follow an accommodated monetary policy. In the course of 2009-10, the RBI has been steadily geared towards supporting early recovery of the growth momentum while facilitating the unprecedented borrowing requirement of the government to fund its fiscal deficit.

- The fiscal expansion undertaken by the Central Government as a part of the policy response to counter the impact of the global economic slowdown in 2008-09 was continued in fiscal 2009-10. The expansion took the form of tax relief to boost demand and increase the expenditure on public services to create employment and public assets. The net result was an increase in fiscal deficit from 2.6% in 2007-08 to 5.9% of the revised GDP (new series) in 2008-09 (provisional) and 6.5% in budget estimate for 2009-10 (as against 6.8% of the GDP on the old series reported earlier).

- Fiscal year 2009-10 saw the strengthening of several public initiatives and programmes with a view to cushioning the impact of global slow down on the more vulnerable segments of the population in the country. While some of these programmes were a part of the ongoing interventions to deep effect to a more inclusive development strategy, there were some measures which were undertaken as a direct response to the slow down of the growth, especially in tradable sectors of the economy. Thus, emphasis in favour of higher allocation to social sector development given in recent year continue to be reflected in allocations under the Union Budget 2009-10. The share of Central Government expenditure on social services including rural development in total expenditure (plan and non-plan) increase to 19.46% in 2009-10 (BE) from about 10.46% in 2003-04.

- India has pursued a strong domestic agenda for addressing the issue of climate change while engaging constructively with international community. Given the steadily improving fundamentals of the economy, the medium term prospectus of the Indian economy are really strong. If, in addition to this there are improvements in infrastructure, both urban and rural and reform in governance and administration, it is entirely possible for India to move into rarefied domain of double digit growth and even attempt to don the mantle of the fastest growing economy in the world within next four years.

ELEMENTS OF BUSINESS LAWS AND MANAGEMENT

WAY TO BEING A LEADER

Dwight D. Eisenhower says that “The supreme quality for leadership is unquestionably integrity. Without it, no real success is possible, no matter whether it is on a section gang, a football field, in an army, or in an office.”

John C. Maxwell says that “A leader is one who knows the way, goes the way, and shows the way.”

Leadership is one of the most important aspects of directing and managing. It is a process of influencing the behaviour of individual and the group so that defined objectives are achieved enthusiastically. Leadership has been defined differently by various management experts as for instance Keith Davis defines leadership as “the ability to persuade others to seek defined objectives enthusiastically. It is the human factor which binds a group together and motivates it towards goals.” According to Drucker, “Leadership is the lifting of man's visions to higher sights, the raising of man's performance to a higher standard, the building of man's personality beyond its normal limitation.”

A leader is one who brings about a change in an individual or a group of individuals. A leader is someone who is looked upto at, for guidance consistently. A true leader inspires steadfast loyalty from his followers. The following comprehensive list given by Peter Birley, UK CIO depicts the A-Z of leadership.

A - Assertive, Approachable, Accountable
B - Balanced, Brave
C - Creative, Coherent, Curious
D - Decisive, Delegating
E - Enthusiastic, Empowering, Encouraging
F - Focused, Flexible
G - Goal-Orientated, Governing
H - Honest, Helpful, Happy
I - Intuitive, Intelligent
J - Just
K - Knowledgeable
L - Listener, Lawful

2 Prepared by Shival B. Gupta, Assistant Education Officer under the guidance of Archana Kaur, Assistant Director, The ICSE
Remember that being charismatic is certainly helpful, but it’s not essential. Therefore practice these simple steps and you will be a leader all through. But Z - Zealous i.e. enthusiastic, passionate

X - Xenophilous i.e. a person who is attracted to which is foreign like foreign

V - Versatile, Venerable i.e. respected or admired

U - Understanding

T - Trustworthy, Thinker

S - Self motivating, Strategist

P - Perceptive, Progressive, Personable

O - Objective, Open, Opportunist

N - Nurturing, Noble

M - Motivational, Mindful, Mentor

O - Objective, Open, Opportunist

P - Perceptive, Progressive, Personable

N - Nurturing, Noble

M - Motivational, Mindful, Mentor

Therefore, practice these simple steps and you will be a leader all through. But remember that being charismatic is certainly helpful, but it’s not essential. There have been many admired leaders in the human history who weren’t the friendliest and the most charming in the group, but people trusted them, and they were inspired by his vision. Therefore always practice what you preach. There’s no better way to lose your credibility as a leader than to be hypocritical.

“If your actions inspire others to dream more, learn more, do more and become more, you are a leader.”
