FROM THE SECRETARY & CEO’S DESK

A successful person is one who can lay a firm foundation with the bricks that others throw at him or her.

— David Brinkley

Dear Students,

Life is full of opportunities. Whatever sphere of life we are in, we come across new opportunities and the most successful people in life are those who are quick to identify such opportunities and capitalize on opportunities to their advantage. Here, a word of caution, you must have heard that opportunity never knocks twice. If you miss out one do not sit back instead create opportunities for yourself.

As a student of Company secretaryship course you have set for yourself the goal of becoming a successful professional. Treat it as an opportunity, you have created for yourself. Remember that the key to reach the goal is determination, self discipline, self confidence and commitment to self. Have faith in your decision the edge that you would have over your peers.

Don’t let the negative thoughts ever influence your mind and action.

Have faith in your abilities, make a fair assessment of your strengths and weaknesses, make sincere attempts to further strengthen whatever you are good at and be positive in your thinking, planning and actioning.

You cannot befool yourself. Stress, anxiety, tiredness all are natural exam conditions. Learn to relax. God has given you a special gift. The gift of self belief, have faith in yourself.

My sincere advice to you, as Wendy Wasserstein put it, “Don’t live down to expectations. Go out there and do something remarkable.” I wish you success in all your endeavours.

Industrial policy is one of the important instruments in the hand of state to attain desired economic objectives as per five year plan priorities and to provide respectable level of living to masses. The main objectives of industrial policy of Government are:

- To maintain a sustained growth in productivity;
- To enhance gainful employment;
- To achieve optimal utilization of human resources;
- To attain international competitiveness and
- To transform India into a major partner and player in the global arena.

The focus of industrial policy is on -

(a) Deregulating Indian industry;
(b) Allowing the industry freedom and flexibility in responding to market forces and :
(c) Providing a policy regime that facilitates and fosters growth of Indian industry.

Some of the important features of industrial policy include the following:

(i) **Liberalisation of Industrial Licensing Policy**

The list of items covered under compulsory licensing under the Industries (Development & Regulation) Act, 1951 is reviewed on an ongoing basis. At present, only five industries are under compulsory licensing mainly on account of environmental, safety and strategic considerations. Similarly, there are only two industries reserved for the public sector. The existing List of industries reserved for the public sector and List of items under compulsory licensing are as per Appendix-III and IV respectively.

(ii) **Industrial Entrepreneurs’ Memorandum (IEM)**

Industries not covered under compulsory licensing are to file an Industrial Entrepreneurs’ Memorandum (IEM) to the Secretariat for Industrial Assistance (SIA). No industrial licence is required for such exempted industries. Amendments are also allowed to IEMs filed w.e.f. 1.7.98.

(iii) **Liberalisation of the Locational Policy**

A significant development, has been a decision of the Government to do away with the locational stipulation in setting up of industries in cities with population of one million and above as per 1991 census. Entrepreneurs are now free to select the location for setting up industry. Necessary amendment to this effect has been made in Notification No. 477(E) dated 25.7.1991 with the issue of notification No. 2054(E) dated 14.8.2008, issued under the provisions of the IDR Act, 1951. However, Zoning and land use regulations as well as environmental legislations continue to regulate industrial locations.

(iv) **Clarification regarding description of items under heading ‘Atomic Energy’, reserved for PSUs**

Another development, strengthening the policy of transparency of the Government, was to take a decision on specifying the items under the head “Atomic Energy”, reserved for public sector. Material and substances of Atomic Energy have been specifically indicated in notification No. 2630 (E) dated 19.10.2009, issued by the Department which are reserved for public sector only. Henceforth, private entrepreneurs could apply for industrial licence for production of the materials and substances of Atomic Energy, not mentioned in the above notification. As a result of the above amending notification, the two entries relating to ‘atomic energy’ mentioned under Schedule-I to notification No. S.O. 477(E) dated 25.7.1991, have been merged into one.

(v) **Policy for Small Scale Industries**

Though reservation of items exclusively for the Small Scale sector forms an important focus of the industrial policy, review for degeneration of such items is also undertaken by the Government at periodic intervals, in order to enhance competitiveness of such products in the domestic/global markets. Review of reserved items is thus a continuous process. At present 21 items are reserved for manufacture in the small scale sector. All undertakings other than the small scale industrial undertakings engaged in the manufacture of items reserved for manufacture in the small scale sector are required to obtain an industrial licence and undertake an export obligation of 50% of the annual production. This condition of licensing is, however, not applicable to those undertakings operating under 100% Export Oriented Undertakings Scheme, the Export Processing Zone (EPZ) or the Special Economic Zone Schemes (SEZs).

At present, the SSI is defined under the Micro, Small & Medium Enterprises Development (MSMED) Act, 2006, which has categorized SSES (Small Scale Enterprises) as having the value of investment in plant machinery less than Rs. 5 crore. However, the MSMED Act has not made any provision for restricting equity participation in such industries by other industries. Therefore, Government has vide Notification No. S.O. 563(E) dated 27.2.2009 rescinded notification S.O. 857(E) dated 10.12.1997 vide which FDI in SSSs was restricted to 24%.

(vi) **Policy for Foreign Direct Investment**

Promotion of Foreign Direct Investment (FDI) forms an integral part of the Industrial Policy. FDI helps in accelerating economic growth by means of infusion of capital, technology and modern management practices. Government has put in place a liberal and transparent foreign investment regime, wherein FDI up to 100% is allowed, under the automatic route, in most sectors/activities. Government has, on a review of the extant policy on Foreign Direct Investment, further rationalized the following sectors/areas in 2009:

(i) Print Media.
(ii) Guidelines for calculation of total foreign investment i.e. direct and indirect foreign investment in Indian Companies;
(iii) Guidelines for transfer of ownership or control of Indian companies in sectors with caps from resident Indian citizens to non-resident entities.
(iv) Clarificatory guidelines on downstream investment by Indian Companies.
(v) Clarification on Foreign Direct Investment (FDI) Micro & Small Enterprises (MSE) and in Industrial Undertakings manufacturing items reserved for SSI/ MSE.
(vi) Liberalization of Foreign Technology Agreement policy.
(vii) Non Resident Indian Scheme.

The general policy and facilities for Foreign Direct Investment, as available to foreign investors/companies, applies to NRIs as well. In addition, Government has extended special concessions to NRIs in the following sectors:

(i) NRI investment in the construction development sector is allowed up to 100%. Such investments are exempted from the conditions of minimum capitalisation, minimum area development and lock-in period on investment.
(ii) FDI up to 49% and investment by Non-resident Indians (NRIs) up to 100% is allowed on the automatic route in Domestic Scheduled Passenger Airline Sector;
(iii) FDI up to 74% and investment by Non-resident Indians (NRIs) up to 100% is allowed on the automatic route in Non Scheduled airlines, Chartered airlines, and Cargo airlines;
(iv) FDI up to 74% and investment by NRI up to 100% is allowed on the automatic route in Ground Handling Services; and Individual NRIs are also permitted to invest on non-repatriable basis in partnership firms and proprietorship concerns.

**Industrial Performance during 2009-10**

The global economic outlook has improved over the past few months. After a deep global recession, economic growth has turned positive. As per World Economic Outlook, although advanced economies are projected to expand sluggishly through much of 2010, Global real GDP is forecasted to expand by about 3 per cent in 2010. The rebound is driven by China, India.
and a number of other emerging economies. Indian economy grew at an average rate of 8.8 per cent in the four-year period from 2005-06 to 2008-09, despite the crisis-affected year of 2008-09. The economy weathered the financial turbulence well and grew at 7.2 per cent in 2009-10. The rapid adjustments in the monetary and fiscal policies were well calibrated and desired results achieved. Industrial sector witnessed a sharp slowdown during 2008-09 as a consequence of successive shocks. The most important being the adverse impact of the global financial crisis. However, industrial growth measured in terms of Index of Industrial Production (IIP) registered growth of 7.6% during 2009-10 (April-November). All the three sectors namely mining, manufacturing and electricity have shown positive growth during 2009-10 (April-November). The Mining & Quarrying registered a growth rate of 8.3 per cent during 2009-10 (April-November) compared to 3.4 percent achieved during the same period of the previous year. Manufacturing and Electricity Sector registered growth rates of 7.7 per cent and 6.1 percent respectively during 2009-10 (April-November), as compared to 4.2 percent and 2.8 percent growth registered during the corresponding period of the previous year.
