(5 marks)
- (c) Discuss Porter's Five Forces Model of industry analysis.
(5 marks)
- (d) Describe the main approaches to evaluation of strategic alternatives.
(5 marks)

2. Read the following extract from the annual report of Sterlite Industries (India) Ltd. and answer the questions given at the end :

"Our business and operations are subject to a variety of risks and uncertainties which are no different from any other company in general and our competitors in particular. Risks are identified through a formal risk management programme with the active involvement of business managers and senior management personnel at both the subsidiary level as well as the corporate level. Each significant risk has an 'owner' within the group at a senior level, and the impact to the group, if a risk materialises and its likelihood of crystallization is regularly reviewed. A risk register and matrix is maintained, which is regularly updated in consultation with business managers. The risk management process is coordinated by our management assurance function and is regularly reviewed by our Audit Committee. Key business decisions are discussed at the monthly meetings of the Executive Committee and senior managers address risk management issues when presenting initiatives to the Executive Committee. The overall internal control environment and risk management programme is reviewed by our Audit Committee on behalf of the Board of directors.

The areas identified for risk management by the company include - Treasury Management; Commodity Risks; Political, Legal, Economic and Regulatory Risks; Ore Reserves and Resources; Delivery of expansion projects on time and within budget; ASSET use and Insurance; Safety, Health and Environment Risks; Operational Risks; Financial Risks; Liquidity; Foreign Currency; Interest Risks; Counterparty Risks; and Employees.

During the year 2008-09, the world witnessed several mine closures, production cutbacks and deferral of projects. Despite such negative market sentiments and a depressed outlook for demand, we remain focused on our basic objectives of achieving a least-cost position and developing low capital cost projects on or ahead of schedule and within budgets. Thus the year 2009-10 augurs well."

Questions –

- (i) What is risk management ?
